**This Year's Catalog on our 22nd Anniversary
is Dedicated to
The Raymond and Brinda Pape Family**

It is very unusual to have both members of a family to be so involved over numerous years in our Angora goat industry. It all started in Harper, Texas. Raymond's father raised commercial Angoras. In high school in 1945 Raymond bought a Charlie Parker (Harper) nanny kid that won the local show. The doe went on to win the Hill Country District Show (on the Hill at Kerrville). Mr. Parker said "I'll give you \$75 to buy her back." Raymond thought a while. The Papes have always been known for their horsemanship skill, but Raymond as a young man did not have his own saddle. Seventy five dollars would help make that possible so a trade was made. Raymond still has that saddle; at 79 years he still saddles up (not the same saddle) weekly and helps neighbors work their livestock.

In the late 40's, Raymond's father leased some land in the Leakey area. When the drought got worse they went to work at the Prade Ranch. And that is where Brinda and Raymond met. Brinda was raised in Illinois, but her family would vacation at the Prade Ranch. Brinda worked there two years. They got married and started their own commercial herd.

Raymond commented, "We could not afford to buy the billies that we really wanted. So we decided to buy a few registered nannies". Two does were purchased at a TAGRA Sale from Mrs. Burrows of Barksdale. Mr. Charlie Boren had been buying goats from Mr. Hay in Bandera. Mr. Boren suggested that Raymond and Brinda buy his older nannies when Boren sold out. They began to learn as much as possible from numerous breeders including John Dittmar, Mike Pember, Le Roy Keese, Carlton Goldbold, and Gilbert and Laura Schmidt. Brooks Sweeten noticed the keen interest of the family as the older son, Marty, was beginning to show goats. So Brooks gave Marty two older does. "That's when we really started climbing. We had a lot of help from several breeders." The family never kept more than 25 registered does and kept improving their commercial goats - striving to keep in the middle of fine hair with some pounds. 'Climbing' is a modest understatement! In the 1980's Marty and Duane won 21 champion goblets at the junior and TAGRA shows. Marty continued in Raymond's footsteps as a respected judge of Angora goats and working with horses and cattle near Mason. Duane is the personal helicopter mechanic for the Bass Brothers. Connie Dittmar through her aviation interior renovation business recommended Duane for the position. Those mohair connections do go a long way.

When Marty and Duane graduated from high school, the goat-showing slowed down but Brinda and Raymond certainly did not. Brinda is always right there with Raymond. She still gives mohair hand knitting demonstrations. For several years she helped register all of our goats at the American Rocksprings office. Brinda still heads up the resolution committee for TAGRA and remains a director of both TAGRA and AAGBA. She has helped judge various essay contests for the Texas Sheep & Goat Raisers. As Doris Haby says, "The Papes are just wonderful folks to work with!"

Raymond is one of the few breeders who sheared many of his own goats. This skill helped him as a breeder and judge. Warehousemen commented how

uniform the Pape bags of mohair were prepared. He is still judging goats - not only in Texas but all over the USA and Canada. Raymond has served our industry as president of both TAGRA and AAGBA.

In 2000 Brinda and Raymond sold their goats and moved to Mason to slow down (but not really). As usual they will continue to attend the TAGRA and AAGBA meetings as directors. Raymond will help sift the TAGRA goats and judge the Davis Special class later this month.

We still depend upon the Papes. Brinda and Raymond are truly amazing. All of us in the mohair industry say, "Thank you!"

REFERENCE SIRE

A.B. Hobson & Sons Martysford Stud

76 - This buck was sired by K131, the twin to the Martysford buck that sold for 110,000 Rand, a world record price. He combines the size, muscle, thickness, and correctness of a superior meat goat with a typical soft South African mohair fleece.

422 - This buck was Mike Hobson's selection for the partnership. His sire was an outstanding producer for the Hobsons. Phenotypically this buck is well balanced but not flashy. However, he is a "blue blood" stud; he consistently produces quality kids, both straight South African and "cross".

04 - In 1994 Mike Hobson, Fred Speck, and Hayden Haby returned to South Africa and selected this buck for the second importation. His conformation is near perfect. His offspring have fine fleeces.

80 - This buck was also selected by Hobson, Speck, and Haby for the second importation. His sire was a Thorn Park buck purchased at the dispersal sale by A.B. Hobson and Brett Wienand. Haby really likes this big, tall, long bodied buck.

Haby, Lockhart, Ross, Speck

HLRS 60 - Out of 80 and a "Lockdale" doe imported from South Africa, this buck combines a long stapled fleece with a very correct body conformation. The yearling does on Laura Speck's 1999 Show Circuit were both out of this buck. His two sons at the Sonora Test had the longest staple length in 1999.

HLRS 606 - This buck has an excellent body conformation with a thick spring of ribs, level rump, and he walks wide. He also carries a uniform, ringlet, yearling fleece. He is out of HLRS 153 (an 04 son) and a Thornpark stud doe #81.

HLRS-4-690 This buck is a grandson of HLRS 60. He is large, open faced, thick ribbed, and has a uniform fleece.

HLRS-5-734 A son of HLRS 606, this is a thick bodied fancy buck with a uniform fine fleece. He is one of the best SA bucks we have raised. His mother is out of HLRS 233 (out of HLRS 422 and the stud Lochdale doe, 93-101)

Ross Ranch Sires and Comments

Our kidding starts about the third week of March thru early May. Most of us in the registered goat business make notes about our individual animals. Listed below are some of the codes that we use in our records. For those who want this info, some are reflected on our individual lots in this catalog. We “bag” out all of our does each year (even the commercial ones) since the udder teat structure plays a very important role in % kid crop raised in the pasture. Likewise, we place a strong emphasis on scrotal size, evenness & skin/mohair cover for fertility. Staple length is measured on the side, rump & britch.

#1 = excellent	#2 = good	#3 = average	#4 = poor
SSK = Super, Super Kid		B = overall body	
SK = Super Kid		SIZE = big, good, med, small	
FK = Fine Kid		HN = horns – diameter & spacing	
KID = low kid		teeth = teeth	
AK = average kid from adult		FT = foretop – 1 = real open face /distinct mohair look	
FYG = finer you goat/yr		HK = width & freedom of cow hock	
YG = regular, low yr		Ribs = spring of ribs	
FA = fine adult		HT = heart, chest width	
CHAR = character of mohair		CMT = Crooked mohair tail	
Length = measure side, back, britch		RAT = slick, rat tail	
K = kemp		SMT = straight, mohair tail	
Y = yield - #2 prefer some lanolin		Sct = scrotum size & inches split	
Un = uniformity		Toes = toes	
		Ud = udder/small teat	
		WW = walks wide	

Speck Ranch Sires:

H-584 “Superfine” - This legendary Haby stud, along with H-787 “Son of Champ”, has provided the foundation of our herd. Both bloodlines have produced champions for Speck Angoras at all major shows in 1990 through 1999.

FLS2-404 - This buck bred true and produced super kids. He had excellent conformation with a wide spring of ribs, wide hindquarters, straight back legs, and strong typical horns. He carried a fine, ringlet yearling grade fleece and was uniform from neck to breech. His sire is 4P-210, grand sire is FLS8-43, and great-grand sire is H-787.

FLS1-249 - This was one of the finest fleeced, most uniform bucks we had. His sire is FLS9-68 and his dam, FLS9-76, is a daughter of “Superfine”. In 1994 he was the first place Aged Buck at the Kerrville, San Antonio, and Houston Jr. Stock Shows.

FLS6-1382 - When Hayden Haby & Jesse Lockhart saw this buck as a yearling, they called him the “perfect buck”. He has correct horns, thick body, and a fine ringlet long stapled fleece with kid hair. He is a son of 404 and has produced many excellent kids.

FLS8-1810 - A son of 1382, this buck still carries a fine ringlet kid fleece and has produced many excellent kids. He is one of our top producers. His mother is out of

249 and was on the show circuit. She won the Grand Champion Goat of Show in Kerrville in 1997.

FLS9-2224 - A son of FLS6-1382, this is a showy, big, extremely fine fleeced uniform ringlet haired buck.

FLS2-3136 This showy buck combines a beautiful fleece with an excellent body conformation. He is a son of FLS0-2593 (son of 1810). He is 100% Texan.

FLS2-3206 This son of FLS8-1810 is 100% Texan and has a very fine fleece.

FLS2-3214 This showy buck has a wide spring of rib and a beautiful ringlet fleece He is 75 % Texan out of FLS0-2593.

FLS3 3505 This son of FLS1-2898 has produced great kids. He is big, robust, open faced, and has a ringlet ,kid fleece. We kept two yearling bucks this year that he sired.

FLS3-3631 This buck is 75% Texan out of FLS1-2763 (son of 1810). His mother is out of HLRS 422. He is a showy, well balanced buck

FLS4-3724 A son of FLS2-3214, this is a fancy, fine fleeced buck.

FLS4-3866 This son of FLS0-2350 has a dense,very long stapled,uniform kid fleece.

FLS5-4184 A son of FLS3-3505, this is a thick bodied, showy buck.

FLS5-4327 I love the fine, ringlet, dense fleece on this showy buck He is out of FLS9-2224.

FLS6-4412 A son of FLS0-2350, he is 100% Texan. He has a fine , ringlet fleece.

FLS6-4503 This is one of our favorite young bucks. He is out of FLS3-3505. He is open faced, large, thick and has a fine, uniform, ringlet fleece.

FLS6-4562 This 50% Texas buck is out of HLRS-2-606. He is long bodied, thick, large , upstanding and has a ringlet fine fleece.

BREEDER'S GUARANTEE - Should any goat be proven to be a non-breeder its first breeding season, please notify the particular breeder. Common sense and fairness by both the seller and buyer should prevail. If the animal has not been neglected, fed excessively, exposed to a disease after the sale, loaned out, or sold to another party, etc., the animal may be returned for replacement after agreement by the seller. No guarantee can be made as to how the goat will cross with your goats. The goats should be allowed adequate time to adapt to their new location after transportation.

TERMS are cash or check. Should any dispute arise from the taking of bids, the auctioneer's decision will be final.

HEALTH CERTIFICATES - Any potential buyer should check in advance with his state's veterinary health requirements and be prepared to make necessary arrangements.

SHEARING DATES

Ross -- Jan 24th unless otherwise noted.

Speck-- bucks--Jan 7th, does --Jan 8th .

Even though we breeders have similar standards and breeding programs, the animals have been raised in different environments, management and kidding dates. Please make notes of these differences and make visual comparisons of individual animals from within that specific herd.
