

This Year's Catalog on our 23rd Anniversary is Dedicated to

Mac Gilliat - What an Impact!

As the Clayton Criders said, "Everybody in Leakey would like to sing praises to Mac. He lived on our ranch for several years when he first moved here." Sonny Sansom echoed, "He was a friend, a true livestock man and was always helping others. Mac had a great sense of humor."

As an Extension Agent, Mac worked with several families through three or four generations. "In preparation for the stock shows he was there to give all of us encouragement and treated everyone fairly. We will always remember Mac's toothpick, his smile and support.", according to Ben Lockhart.

Preston Faris had these comments: "What to say to honor a dear friend? Mac couldn't swim a stroke and yet he might offer instruction on the proper techniques of "how to water ski." And it is my bet that it would be accurate. He had the mind of a calculator, a 500 GB memory bank, if asked would give you his real opinion about an issue, was as honest as any man I have ever known, gave freely of his time and talent to help others big or small and left a lasting impact on the lives of many. I'm proud of the fact that he honored me with his friendship. I think of him often and miss him dearly." Everybody appreciated Preston having the San Antonio Stock Show minister to give a special prayer for Mac this year.

So many others have expressed their admiration for Mac. Eddie Holland wrote, "Everyone will always remember Mac for his pointed boots, camp bread and cobbler. They will also remember Mac for his tireless work with the Kerrville, San Antonio and San Angelo livestock shows, and his dedication to the 4-H Horse Show programs. I especially enjoyed working with Mac at the Hill Country, South Texas Regional, and State pecan shows. Mac spent untold hours weighing individual pecans for his Real County producers in order for them to have outstanding entries. Not many people know that the statistics in judging criteria were developed by Mac; and are still used today.

Every year Mac and I would get a call from Fred asking us to help evaluate goats for his sale. Many times when we were evaluating we would see Mac roll his head, point his finger, and say, "Woo Ha! Look at that spot." The spot would be at the top of the hip, broaden out at the base, and be a little frizzy. That jokingly became the "MAC SPOT". So now when we are evaluating goats and see one of those spots we always think of Mac.

Vicky Cantrell: "Mac touched so many lives; he was a friend and mentor to all, the young and the young at heart. He had such knowledge of the land, agriculture and people. He forgot more than most of us ever knew. Mac enjoyed life - ranching, working livestock shows, judging Angora goats, cooking, playing bridge, telling stories and helping others. He spent many hours analyzing goats for shows and sales such as this one today. He enjoyed this task and the visits and contacts

that resulted. Thank you for honoring him this way! We will forever remember his cowboy hat, toothpick and pointed-toe boots, blue Ford pickup and one-finger wave. He was a "true gentleman" and will be forever in our hearts! Love you Mac! Vicky and Family"

Carol and Robin Giles, who with many other producers and 4-H club leaders worked with Mac spoke up, "He was a special person in our industry who also had a genuine enthusiasm for the youth!"

Hayden Haby said, "Mac Gilliat was the smartest, kindest, most versatile person I have had the pleasure and good fortune to know and work with for many years. Mac was competent and dependable when judging 4-H shows, pecan shows or Angora goat shows. He will certainly be missed by his many friends and the folks in Real County. He never had a bad word about anyone."

Mary Bridges (Mac's sister): "We really appreciate the huge out-pouring of love and recognition for Mac. This includes Lanny Leinweber and area neighbors rounding up and hauling Mac's cattle to the auction recently. Mac had talked to Lanny earlier about when best to ship cattle."

Many of us will want to visit today privately with Mary and some of her family and with Vicky. We especially want to thank Vicky for sharing Mac with us at so many events over the years. Mary, your parents must have been great. They would be proud of you and Mac working with young ones in Pilot Point and Leakey. Mac will want you and your family to carry on the family tradition of being concerned for others, the land and livestock in your own way. Without saying it directly, Mac's legacy has issued all of us a challenge. "Be consistent, persistent and work together." Frank Craddock said it well, "I loved him. All of us will miss Mac!"

REFERENCE SIRES

A.B. Hobson & Sons Martysford Stud

76 - This buck was sired by K131, the twin to the Martysford buck that sold for 110,000 Rand, a world record price. He combines the size, muscle, thickness, and correctness of a superior meat goat with a typical soft South African mohair fleece.

422 - This buck was Mike Hobson's selection for the partnership. His sire was an outstanding producer for the Hobsons. Phenotypically this buck is well balanced but not flashy. However, he is a "blue blood" stud; he consistently produces quality kids, both straight South African and "cross".

04 - In 1994 Mike Hobson, Fred Speck, and Hayden Haby returned to South Africa and selected this buck for the second importation. His conformation is near perfect. His offspring have fine fleeces.

80 - This buck was also selected by Hobson, Speck, and Haby for the second importation. His sire was a Thorn Park buck purchased at the dispersal sale by A.B. Hobson and Brett Wienand. Haby really likes this big, tall, long bodied buck.

Haby, Lockhart, Ross, Speck

HLRS 60 - Out of 80 and a "Lockdale" doe imported from South Africa, this buck combines a long stapled fleece with a very correct body conformation. The yearling does on Laura Speck's 1999 Show Circuit were both out of this buck. His two sons at the Sonora Test had the longest staple length in 1999.

Continued on Next Page

HLRS 606 - This buck has an excellent body conformation with a thick spring of ribs, level rump, and he walks wide. He also carries a uniform, ringlet, yearling fleece. He is out of HLRS 153 (an 04 son) and a Thornpark stud doe #81.

HLRS-4-690 This buck is a grandson of HLRS 60. He is large, open faced, thick ribbed, and has a uniform fleece.

HLRS-5-734 A son of HLRS 606, this is a thick bodied fancy buck with a uniform fine fleece. He is one of the best SA bucks we have raised. His mother is out of HLRS 233 (out of HLRS 422 and the stud Lochdale doe, 93-101)

Haby Ranch Sires

FLS0-2407- This buck's sire is FLS 1337 out of 607-404. Jesse, Fred, and I bred this buck with excellent results. He is extremely fine and uniform.

FLS0-4745 - Sire FLS3-3505, Dam FLS0-2629. This buck was on Tyler's show string. He is a big long bodied buck with a ringlet kid fleece. His mother is an 1810 daughter.

FLS0-4687 - Sire 2407, Dam FLS 3847. Jesse Lockhart and I paid \$2,600 for this buck at the 21st HLRS sale.

Ross Ranch Comments

Our kidding starts about the third week of March thru early May. Most of us in the registered goat business make notes about our individual animals. Listed below are some of the codes that we use in our records. For those who want this info, some are reflected on our individual lots in this catalog. We "bag" out all of our does each year (even the commercial ones) since the udder teat structure plays a very important role in % kid crop raised in the pasture. Likewise, we place a strong emphasis on scrotal size, evenness & skin/mohair cover for fertility. Staple length is measured on the side, rump & britch.

#1 = excellent	#2 = good	#3 = average	#4 = poor
SSK = Super, Super Kid		B = overall body	
SK = Super Kid		SIZE = big, good, med, small	
FK = Fine Kid		HN = horns – diameter & spacing	
KID = low kid		teeth = teeth	
AK = average kid from adult		FT = foretop – 1 = real open face /distinct mohair look	
FYG = finer you goat/yr		HK = width & freedom of cow hock	
YG = regular, low yr		Ribs = spring of ribs	
FA = fine adult		HT = heart, chest width	
CHAR = character of mohair		CMT = Crooked mohair tail	
Length = measure side, back, britch		RAT = slick, rat tail	
K = kemp		SMT = straight, mohair tail	
Y = yield - #2 prefer some lanolin		Sct = scrotum size & inches split	
Un = uniformity		Toes = toes	
		Ud = udder/small teat	
		WW = walks wide	

Speck Ranch Sires:

H-584 "Superfine" - This legendary Haby stud, along with H-787 "Son of Champ", has provided the foundation of our herd. Both bloodlines have produced champions for Speck Angoras at all major shows in 1990 through 1999.

FLS2-404 - This buck bred true and produced super kids. He had excellent conformation with a wide spring of ribs, wide hindquarters, straight back legs, and strong typical horns. He carried a fine, ringlet yearling grade fleece and was uniform from neck to breech. His sire is 4P-210, grand sire is FLS8-43, and great-grand sire is H-787.

FLS1-249 - This was one of the finest fleeced, most uniform bucks we had. His sire is FLS9-68 and his dam, FLS9-76, is a daughter of "Superfine". In 1994 he was the first place Aged Buck at the Kerrville, San Antonio, and Houston Jr. Stock Shows.

FLS6-1382 - When Hayden Haby & Jesse Lockhart saw this buck as a yearling, they called him the "perfect buck". He has correct horns, thick body, and a fine ringlet long stapled fleece with kid hair. He is a son of 404 and has produced many excellent kids.

FLS8-1810 - A son of 1382, this buck still carries a fine ringlet kid fleece and has produced many excellent kids. He is one of our top producers. His mother was out of 249 and was on the show circuit. She won the Grand Champion Goat of Show in Kerrville in 1997.

FLS9-2224 - A son of FLS6-1382, this is a showy, big, extremely fine fleeced uniform ringlet haired buck.

FLS0-2350 - This is a fine-haired, showy buck, 100% Texas, and is a full brother to FLS8-1810. He also produces good kids.

FLS2-2407 - Hayden Haby, Jesse Lockhart, and Joe David Ross purchased this buck at the 2001 HLRS sale. Hayden lent him to me for two breeding seasons. His offspring have very fine uniform fleeces and an open face. He is a son of FLS 1337 (out of 607...404). The buck has maintained a ringlet, superkid fleece.

FLS2-3136 - This showy buck combines a beautiful fleece with an excellent body conformation. He is a son of FLS0-2593 (son of 1810). He is 100% Texan.

FLS2-3206 - This son of FLS8-1810 is 100% Texan and has a very fine fleece.

FLS2-3214 - This showy buck has a wide spring of rib and a beautiful ringlet fleece. He is 75 % Texan out of FLS0-2593.

FLS3 3505 - This son of FLS1-2898 (out of 2224) has produced great kids. He is big, robust, open faced, and has a ringlet, kid fleece. We kept several bucks he sired over the past four years.

FLS4-3724 - A son of FLS2-3214, this is a fancy, fine fleeced buck.

FLS4-3866 - This son of FLS0-2350 has a dense, very long stapled, uniform kid fleece.

FLS5-4007 - This buck produces beautiful fleeces and we kept a stud buck this year he sired. He is out of 2671, a 404 son that had a great body. This buck is 75% Texan.

FLS5-4184 - A son of FLS3-3505, this is a thick bodied, showy buck.

FLS5-4199 - Haby told me to keep this huge, long bodied buck with a ringlet kid fleece. His father is FLS1-2844 (a full brother to 1810 & 2350).

FLS5-4320 - This 100% Texas buck has bred very well and has a number of goats in this sale. His sire, 2844, is a full brother to 1810 and 2350. His mother is out of 607. The buck is big, long bodied, and has a fine dense fleece.

FLS5-4327 - I love the fine, ringlet, dense fleece on this showy buck He is out of FLS9-2224.

FLS6-4412 - A son of FLS0-2350, he is 100% Texan. He has a fine , ringlet fleece.

FLS6-4503 - This is one of our favorite young bucks. He is out of FLS3-3505. He is open faced, large, thick and has a fine, uniform, ringlet fleece.

FLS6-4542 - This buck is out of 3866 and a Naumann doe. He has a very wide body and a dense fine fleece.

FLS6-4552 - This big robust fine fleeced buck is 100% Texan. His sire is 3136 and dam is out of 2224.

FLS6-4562 - This 50% Texas buck is out of HLRS-2-606. He is long bodied, thick, large, upstanding and has a ringlet fine fleece.

FLS6-4650 - Haby told me to keep this alert upstanding buck. He is an 1810 grandson. This year we kept a buck he sired.

FLS7-4846 - This 100% Texan buck has a gorgeous ringlet long staple fleece with 1+ grease. His sire is 2407 and his mother is stud doe 668 (1810, 2350, 2844). He has done well on Tyler's show string.

FLS7-4879 - This 87.5% Texas goat is out of 2844. He has an excellent body structure and dense fine fleece.

FLS7-4897 - This 75% Texas buck has one of the finest fleeces of any buck we have raised (super kid and ringlet). His sire is a son of HLRS 28 and his mother is out of 1810.

For the first time in 10 years we had a major outbreak of lice. We controlled the lice by dipping the goats a total of three times and they are now lice free. The dipping has caused some of the fleeces to be harsher and has stripped some of the lanolin from their fleeces. Please consider this when examining the goats.

BREEDER'S GUARANTEE - Should any goat be proven to be a non-breeder its first breeding season, please notify the particular breeder. Common sense and fairness by both the seller and buyer should prevail. If the animal has not been neglected, fed excessively, exposed to a disease after the sale, loaned out, or sold to another party, etc., the animal may be returned for replacement after agreement by the seller. **No guarantee can be made as to how the goat will cross with your goats.** The goats should be allowed adequate time to adapt to their new location after transportation.

TERMS are cash or check. Should any dispute arise from the taking of bids, the auctioneer's decision will be final.

HEALTH CERTIFICATES - Any potential buyer should check in advance with his state's veterinary health requirements and be prepared to make necessary arrangements.

SHEARING DATES

Haby -- January 21st

Ross -- Jan 24th unless otherwise noted.

Speck -- bucks - January 3rd, does - January 4th.

Even though we breeders have similar standards and breeding programs, the animals have been raised in different environments, management and kidding dates. Please make notes of these differences and make visual comparisons of individual animals from within that specific herd.
