The Twenty Fourth Anniversary Joint
Haby-Lockhart-Ross-Speck
Angora Goat Production Sale

Conducted By Auctioneer
Preston Faris
TX Lic. No. 16026

HLRS wants to thank our family members who help with the sale and its preparation and other friends who have been so helpful over the years.

This Year's Catalog on our 24th Anniversary is Dedicated to:

Bonnie and Dale Nauman

Some families have slowed down with their livestock operation, but not Bonnie and Dale. In fact the Naumann's have truly been the "glue" in TAGRA, the Angora Goat Performance Test and the December Bandera Goat Show as well as being very supportive of several other related activities.

Can you think of an extended, multi-generation family that has been more involved in our industry? It all started with commercial goats of the grandparents of Mike Pember and Minnie Crider Pember. Howard Hay was fortunate to bring Mike onto his registered Angora goat program in the 50's. When Mr. Hay sold out Mike with his natural instinct to select for fineness with uniformity

that would breed true, developed the Pember Angora bloodlines. To this day many breeders' goats will carry some 'Pember' blood. Genetics have been shipped to Turkey, Australia, and Russia and all over the USA and Canada. Mrs. Pember ("Maw Maw") has probably attended more TAGRA shows than any living breeder. She is triple proud to support the goats, friends and family, including great - grandchildren at TAGRA and the winter shows. The Pember's 5 children - Shirley, Maudie, Bonnie, Willie and Kay - all have been active with the goats. No other family, including Mike, has 4 certified judges. The extended ripple affect also includes Dale's two brothers - Darrell and Damon. Indeed our Texas shows would not be the same without the Naumanns, Pembers, Kindricks, and Evans.

Our Angora goat industry has been fortunate to have the husband and wife team of Dale and Bonnie Naumann to give of their time, leadership, enthusiasm, and follow - through action year after year. One or both have served as president of the AAGBA, TAGRA and the performance test advisory/sifting committee. Bonnie has also served on the Texas Farm Bureau sheep and goat committee and as a director of the Mohair Council. It has not been just about winning shows and selling their own goats. It has also been about helping others to add value to our mohair, showmanship, giving good reasons when judging shows and helping young breeders. Many thanks again Dale and Bonnie!

REFERENCE SIRE

A.B. HOBSON & SONS MARTYSFORD STUD

76 - This buck was sired by K131, the twin to the Martyrsford buck that sold for 110,000 Rand, a world record price. He combines the size, muscle, thickness, and correctness of a superior meat goat with a typical soft South African mohair fleece.

422 - This buck was Mike Hobson's selection for the partnership. His sire was an outstanding producer for the Hobsons. Phenotypically this buck is well balanced but

not flashy. However, he is a “blue blood” stud, he consistently produces quality kids, both straight South African and “cross”.

04 - In 1994 Mike Hobson, Fred Speck, and Hayden Haby returned to South Africa and selected this buck for the second importation. His conformation is near perfect. His offspring have fine fleeces.

80 - This buck was also selected by Hobson, Speck, and Haby for the second importation. His sire was a Thorn Park buck purchased at the dispersal sale by A.B. Hobson and Brett Wienand. Haby really likes this big, tall long bodied buck.

HABY, LOCKHART, ROSS, SPECK

HLRS 60 - Out of 80 and a “Lockdale” doe imported from South Africa, this buck combines a long stapled fleece with a very correct body conformation. The yearling does on Laura Speck’s 1999 Show Circuit were both out of this buck. His two sons at the Sonora Test had the longest staple length in 1999.

HLRS 606 - This buck has an excellent body conformation with a thick spring of ribs, level rump, and he walks wide. He also carries a uniform ringlet, yearling fleece. He is out of HLRS 153 (an 04 son) and a Thornpark stud doe #81.

HLRS-5-734 - A son of HLRS 606, this is a thick bodied fancy buck with a uniform fine fleece. He is one of the best SA bucks we have raised. His mother is out of HLRS 233 (out of HLRS 422 and the stud Lochdale doe, 93-101.)

HLRS-5-735 - A full brother to HLRS-5-734, he has a very fine kid fleece.

HLRS-7-821 - This buck is sired by HLRS -3-644(grandson of HLRS 60). He has excellent body conformation and a uniform fleece.

Lockhart Ranch Sire

BL 5600 - This buck has a very correct square body. Fleece is soft, ringlet with nice style and character and adequate luster. Good staple length with an open face.

Ross Ranch Comments

Our kidding starts about the third week of March thru early May. Most of us in the registered goat business make notes about our individual animals. Listed below are some of the codes that we use in our records. For those who want this info, some are reflected on our individual lots in this catalog. We “bag” out all of our does each year (even the commercial ones) since the udder teat structure plays a very important role in % kid crop raised in the pasture. Likewise, we place a strong emphasis on scrotal size, evenness & skin/mohair cover for fertility. Staple length is measured on the side, rump & britch.
