**WELCOME TO THE FOURTEENTH
HABY-LOCKHART-ROSS-SPECK
ANGORA GOAT PRODUCTION SALE**

Conducted By Auctioneer Mark Tillman

This years catalog is dedicated to *Fritz and Hazel Kuebel* of Blanco, Texas. As you have read our catalogs through the years, you have noticed how much we breeders have used their bloodlines. Fritz has judged as far north as New York. He is a past president of the Texas Angora Goat Breeders and continues to be a consistent participant in the Performance Test. Their four children were always helping as they grew up. *Perry*, we appreciate your continued interest. Hazel and Fritz are always smiling and stressing cooperation in our industry. Indeed you have made a big difference. Thanks from all of us here today.

Even though we four breeders have similar standards and breeding programs, the animals have been raised in different environments, management and kidding dates. Please make note of these differences and make visual comparisons of individual animals from within that specific herd.

BREEDER'S GUARANTEE - Should any goat be proven to be a non-breeder its first breeding season, please notify the particular breeder. Common sense and fairness by both the seller and buyer should prevail. If the animal has not been neglected, fed excessively, exposed to a disease after the sale, loaned out or sold to another party, etc., the animal may be returned for replacement after agreement by the seller. **No guarantee can be made as to how the goat will cross with your goats.** The goats should be allowed adequate time to adapt to their new location after transportation.

TERMS are cash or check. Should any dispute arise from the taking of bids, the auctioneer's decision will be final.

HEALTH CERTIFICATES - Any potential buyer should check in advance with his state's veterinary health requirements and be prepared to make necessary arrangements. Some bucks and does have already been tested for TB and brucellosis in an effort to make out-of-state transportation quicker and easier. Announcements will be made on sale day.

REFERENCE SIRES

A.B. HOBSON & SONS MARTYRSFORD STUD

76- This buck was sired by K131, the twin to the Martyrsford buck that sold for 110,000 Rand, a world record price. He combines the size, muscle, thickness, and correctness of a superior meat goat with a typical soft South African mohair fleece.

422 - This buck was Mike Hobson's selection for the partnership. His sire was an outstanding producer for the Hobsons. Phenotypically this buck is well balanced but not flashy. However, he is a "blue blood" stud, he consistently produces quality kids, both straight South African and "cross".

04- In 1994 Mike Hobson, Fred Speck, and Hayden Haby returned to South Africa and selected this buck for the second importation. His conformation is near perfect. His offspring have fine fleeces.

80 - This buck was also selected by Hobson, Speck, and Haby for the second importation. His sire was a Thorn Park buck purchased at the dispersal sale by A.B. Hobson and Brett Wienand. Haby really likes this big, tall long bodied buck.

JOHN HOBSON THORN PARK ANGORAS

K590 - This buck is still a legend in South Africa. He had great impact on the South African herd and is credited with improving the fineness of their clip. We purchased a number of his offspring at the Thorn Park dispersal sale and were successful in landing four daughters, two granddaughters, and one son in Texas.

205 - Purchased at the Thorn Park Dispersal Sale, this buck was rated highly by John Hobson. He is a big buck with a fine, uniform fleece, showing beautiful style and character. His kids produce heavy, high yielding, fine, uniform fleeces.

HABY-LOCKHART-ROSS-SPECK

HLRS -28 - This buck is bred straight Thorn Park. His sire is 205 and his dam is a true stud doe. This buck combines an excellent body conformation with a fine uniform fleece with style and character. We are pleased with his offspring.

HLRS 29- This son of 76 has a tremendous body capacity and a soft, uniform fleece. He was displayed at the 1996 HLRS sale as one of our top stud prospects born in 1995.

HABY-LOCKHART-ROSS-SPECK-(con't)

HLRS 60- Out of 80 and a "Lockdale" doe imported from South Africa, this buck combines a long stapled fleece with a very correct body conformation. The yearling does on Laura Speck's 1999 Show Circuit were both out of this buck. His two sons at the Sonora Test had the longest staple length in 1999.

HLRS 89- This buck has the finest, most uniform fleece of our South African bucks and has already produced number of outstanding kids. His sire is 04 and his dam is a Martyrsford doe

HLRS 106- Combining a uniform, ringlet fleece with a wide correct body, this buck is also open faced. His sire is 76 and his dam is an imported South African Lockdale doe.

HLRS 110 - This son of 76 has his father's wide spring of ribs and correct conformation.

HLRS 153 - This son of 04 combines an excellent conformation with a fine, uniform fleece. His dam is an imported S.A. Thorn Park doe.

HLRS-166 - This son of 04 has thick spring of ribs and a fine long staple fleece.

Haby Ranch Sires

FLS 1497 - This is an extremely fine fleeced son of FLS 404. He is a big vigorous buck with correct conformation.

Lockhart Ranch Sires

BL 1671 "Big Boy" - is one-half South African and is sired by the John Hobson 205 buck. 205 was the finest haired buck that we imported from South Africa. Big Boy is a large fine haired uniformed fleeced buck with a good spring of ribs and very correct body conformation. Big Boys dam was sired by Bill Jr. and his grandmother was sired by Ross 8406 and our very good 317 doe that was sired by the outstanding 332 Pember Buck. 332 was sire by the great double bred 916 Howard Hay buck. Big Boy has over 40 years of fine haired ancestors in his pedigree. This buck has added good South African body conformation and good fine haired Texas type fleeces to our herd. We think that you will like his offspring.

BL 1720 "Lucky" - This herd buck is sired by the great FLS 404 Speck Buck. We picked his dam P-3385 as the top doe at the Pember yearling sale. Lucky has a long deep body with mohair tail and a uniform ringlet fleece that does not change from the neck to the britch. He is one of the truest breeding bucks alive and his dam has been used in our embryo transfer program and has produced several of Diana and Garrett's show goats.

Ross Ranch Sires

K 957 - He is a Kuebel buck that indexed in the top 10 at the 1989 Performance test. His sire is K 814, one of the finest haired bucks in the state. K814 was sired by Early 2 of GLS breeding. We purchased K 957 because he was uniform with a curl, has good horns and is free of kemp.

K 1104- We purchased this Kuebel buck at the 1991 performance test because of his near perfect horns, wide chest, uniformity of fineness, freedom of kemp, and his pedigree. His sire was the famous Haby 584 "Superfine". He may well have been the finest haired buck in Texas at the time. He was the sire of the #1 indexing buck that Mr. Evens purchased from us at the 1994 performance test.

S-144 - We purchased this billy from Betty Stewart family at the 1997 Rocksprings sale because of his size and soft heavy shearing fleece with a moderate amount of lanolin. He was the popular 3rd place buck. We are keeping another open face son of his that has done welll at this year's Performance Test.

FLS 2043 - Haby, Lockhart & Ross thought this was one of Speck's top bucks in 1999. He is a son of FLS 607 and out of a FLS 249 daughter.

JBR 9356 - The South African researchers thought he was the finest haired buck that they had seen in '94. His mother was a daughter of Mr. Livability JBR 8243.

JBR 9735 - we have bred this large, open face Performance Test buck more this past year. He is a son of Hobson 04 and out of JBR 841, a '92 doe sired by Kuebel 814. She raised twins again this year. A show doe JBR 8625 is in the pedigree of both 9356 and 9735.

Speck Ranch Sires

H-584 "Superfine" - This legendary Haby stud, along with H-787 "Son of Champ", has provided the foundation of our herd. Both bloodlines have produced champions for Speck Angoras at all major shows in 1990 through 1999.

FLS2-404 - This buck breeds true and has produced super kids. He has excellent conformation with a wide spring of ribs, wide hindquarters, straight back legs, and strong typical horns. He carries a fine, ringlet yearling grade fleece and is uniform from neck to breech. His sire is 4P-210, grand sire is FLS8-43, and great-grand sire is H-787.

FLS1-249 - This is one of the finest fleeced, most uniform bucks we have. His sire is FLS9-68 and his dam, FLS9-76, is a daughter of "Superfine". In 1994 he was the first place Aged Buck at the Kerrville, San Antonio, and Houston Jr. Stock Shows.

FLS4-607 - This son of 404 was Mike Hobson's top choice of our stud prospects in 1995. He has a fine uniform ringlet fleece and breeds true. Several of his doe kids were on our show string. Mike was impressed with his wide body conformation.

FLS6-1295- A big robust buck with a very fine, uniform ringlet fleece, he is the son of FLS4-613. 613 was lost after only one breeding season. He was an excellent stud out of 404.

FLS6-1334- Out of 607 and grandson of 404, this buck has the distinct fine ringlet lock style that "43" had. He is an upstanding proud vigorous buck that has done well on the show circuit. His fleece placed as Grand Champion fleece in the 1998 Sonora Wool & Mohair Show.

FLS6-1337 - Another son of 607 out of a Haby doe, this is a large upstanding bodied buck with an excellent fleece.

FLS6-1382- When Hayden Haby & Jesse Lockhart saw this buck as a yearling, they called him the "perfect buck". He has correct horns, thick body, and a fine ringlet long stapled fleece with kid hair. He is a son of 404 and has produced many excellent kids. He sired the buck kid that Laura Speck won champion buck with at four major shows in 1999.

FLS6-1390- Out of South African 76, this 1/2 TX buck combines size with a fine dense fleece. His dam, FLS4-646 is a stud doe that won champion doe at major shows as a kid, yearling, and aged doe.

FLS7-1723 - This fancy thick bodied buck has a dense, fine fleece. He is 1/2 Texan, his sire is HLRS 80. His dam is a 404 daughter.

FLS8-1810 - A son of 1382, this buck carries a fine ringlet kid fleece and has produced many excellent kids in his first breeding season. His mother is out of 249 and was on the show circuit. She won the Grand Champion Goat of Show in Kerrville in 1997.

FLS8-1893 - This is a big robust son of 1382 that won Champion Buck as a kid at four major shows in Laura's last year of showing. He has excellent body conformation and a fine uniform fleece.
