WELCOME TO

The Twenty First Anniversary Joint
Haby-Lockhart-Ross-Speck
Angora Goat Production Sale

**Conducted By Auctioneer
Preston Faris**
TX Lic. No. 16026

**This Year's Catalog on our 21st Anniversary
is Dedicated to
The Jess & Sally Lockhart Family**

Four generations of Lockharts have lived and worked in the Barksdale and Camp Wood, Texas area. They have been involved with numerous activities and services that include teaching, Angora goats, Charolais cattle, and caring for the land. Their real estate business is important along with their church and many other ranch related organizations.

Mr. Jesse Lockhart Sr. ranched in the "Nueces Canyon" area all his life. Young Jess would travel with him in a model B Ford pickup with a set of cotton scales to buy mohair from other producers. This is where Jess learned to sort mohair at a young age – an early concept of adding value. After several weeks of sorting mohair an 18 wheeler size shipment would be sent north for sale. Some of us still remember Mr. Jesse showing interest in a mohair practice sorting session and, Mrs. Lockhart enjoyed coming to our early HLRS sales. But that is getting ahead of the story.

When helping his father, young Jess saved three dollars. Mr. Lockhart suggested that the piggy bank should be invested, so a small gilt was purchased. The hogs multiplied and started killing goats so they were sold when Jess was 8 years old. He invested his hog money in Spanish goats. When in the 8th grade the new FFA teacher (Joe Trees) at Barksdale strongly suggested another upgrade. "Go buy some registered Angora goats! There isn't a lot of information on Angora goats. You need to learn all you can about the industry." Young Jess was not sure that his Spanish goat dollars could buy many Angoras, but Mr. Davis a leader in the Angora goat industry said "Don't you worry. This starter group will get you going. Pay what you can". While still in high school and over the years, more breeding stock was also purchased from Brooks Sweeten.

Jess and Sally both graduated from Texas State College at San Marcos where they met. Jess started out from college by teaching chemistry at Odessa High School. But the yearning to return to his 'roots' brought them back to Barksdale to continue teaching and ranching. French Charolais cattle imports were the new agriculture venture. Jess went to Artificial Insemination school and really got serious about the AI and marketing business. Sally and Jess 'stuck their necks' out and borrowed money to buy the ranch where they still live and raised their children – Lila and Ben. Chemistry and physics were taught before lunch. Cows were AI'd early in the morning and later in the day. Sally started teaching also but she kept up with the bookkeeping which she has continued to do after her teacher retirement. The timing was right to sell most of the cattle. The ranch debt was paid off and the Angora goats stayed.

Mac Gilliat said when he came to Real County as the county agent that he was amazed as to how Sally and Jess were able to get so much done. Lila was showing cattle and later Ben showed the goats including several champions. Do you remember when Ben and the Pape brothers made showmanship look so easy? The family worked with both Real and Edwards County 4-H. We all can remember Ben and Paula's children showing their Angoras. It was great when Diana won the

showmanship award in San Angelo. Many of us grandparents always appreciated Garrett quietly helping the younger ones to hold their goats in the show arena. Garrett will tell us that he enjoys working and repairing machinery. He is going to mechanic school so he can be even more involved with Ben and Paula's bulldozer business as well as with the ranch.

Lila and Jimbo Holland live in the Cuero area and manage the Gonzales property. Lila graduated from TAMU and teaches gifted student courses. Jimbo went to TLC on a football scholarship and enjoys raising champion show pigs. Over the years the two daughters Cheryl and Caytlyn, and son Tel have been active in 4-H pig projects. Jimbo owns and operates his own company and Lila helps with the book work in her spare time.

It is truly amazing how Jess and Sally's vision, quiet diplomacy and actions have helped our goat and sheep industry. In the late 1970's and early 80's the TSGRA, Extension Service and MCA were having mohair production workshops. It was at a meeting in Uvalde when some of us for the first time heard two relatively young producers (Allen Steiler and Jess) go into detail as to how they prepared their mohair for extra profit. It was Jess who was the initial stimulus for our HLRS Sale and the importation of the South African goats. He judged and presented workshops in the UK, Australia, Canada, and in many states. While Jess was president of AAGBA, the Rocksprings office was built. Jess was always quick to point out how much Raymond Pape and Brenda, Patty and Tooter Shanklin helped on the project. After the Wool Act was eliminated it was Jess, working with Congressman Stenholm, who suggested the initial concept of the USDA funding the US Sheep and Goat Improvement Center. Senator Graham has hunted several times on the ranch with Ben and Jess. Those contacts have certainly helped all of us in the sheep and goat industry. He served as president of the Mohair Council of America.

When the Real/Edwards Water District was reactivated, Jess, Perry Bushong and Roland Trees were among those on the board.

Predators and land fragmentation have made raising sheep and goats more difficult but as Jess's health has improved, the family is still determined to keep working and raising Angora goats.

Thanks from your Partners and Friends.

BREEDER'S GUARANTEE - Should any goat be proven to be a non-breeder its first breeding season, please notify the particular breeder. Common sense and fairness by both the seller and buyer should prevail. If the animal has not been neglected, fed excessively, exposed to a disease after the sale, loaned out, or sold to another party, etc., the animal may be returned for replacement after agreement by the seller. No guarantee can be made as to how the goat will cross with your goats. The goats should be allowed adequate time to adapt to their new location after transportation.

TERMS are cash or check. Should any dispute arise from the taking of bids, the auctioneer's decision will be final.

HEALTH CERTIFICATES - Any potential buyer should check in advance with his state's veterinary health requirements and be prepared to make necessary arrangements.

SHEARING DATES

Ross -- Jan 19th unless Feb 20th

Speck-- most bucks-- Dec. 15, show bucks--Jan. 19, does --Jan 13.

Even though we breeders have similar standards and breeding programs, the animals have been raised in different environments, management and kidding dates. Please make notes of these differences and make visual comparisons of individual animals from within that specific herd.

REFERENCE SIREs

A.B. Hobson & Sons Martysford Stud

76 - This buck was sired by K131, the twin to the Martysford buck that sold for 110,000 Rand, a world record price. He combines the size, muscle, thickness, and correctness of a superior meat goat with a typical soft South African mohair fleece.

422 - This buck was Mike Hobson's selection for the partnership. His sire was an outstanding producer for the Hobsons. Phenotypically this buck is well balanced but not flashy. However, he is a "blue blood" stud; he consistently produces quality kids, both straight South African and "cross".

04 - In 1994 Mike Hobson, Fred Speck, and Hayden Haby returned to South Africa and selected this buck for the second importation. His conformation is near perfect. His offspring have fine fleeces.

80 - This buck was also selected by Hobson, Speck, and Haby for the second importation. His sire was a Thorn Park buck purchased at the dispersal sale by A.B. Hobson and Brett Wienand. Haby really likes this big, tall, long bodied buck.

Haby, Lockhart, Ross, Speck

HLRS 60 - Out of 80 and a "Lockdale" doe imported from South Africa, this buck combines a long stapled fleece with a very correct body conformation. The yearling does on Laura Speck's 1999 Show Circuit were both out of this buck. His two sons at the Sonora Test had the longest staple length in 1999.

HLRS 606 - This buck has an excellent body conformation with a thick spring of ribs, level rump, and he walks wide. He also carries a uniform, ringlet, yearling fleece. He is out of HLRS 153 (an 04 son) and a Thornpark stud doe #81.

HLRS1- 484- A son of HLRS 106 and grandson of HLRS 76, this buck has wide ,thick body and walks wide. He also has a soft ringlet fleece and an open face. His mother is a stud Mike Hobson doe imported from South Africa.

HLRS1- 494- This buck has great body structure with a wide spring of ribs and he walks straight and wide. His father HLRS 233 is out of HLRS 422 and the stud Lockdale doe, 93-101.

Ross Ranch Sires and Comments

Our kidding starts about the third week of March thru early May. Most of us in the registered goat business make notes about our individual animals. Listed below are some of the codes that we use in our records. For those who want this info, some are reflected on our individual lots in this catalog. We "bag" out all of our does each year (even the commercial ones) since the udder teat structure plays a very important role in % kid crop raised in the pasture. Likewise, we place a strong emphasis on scrotal

size, evenness & skin/mohair cover for fertility. Staple length is measured on the side, rump & britch.

#1 = excellent	#2 = good	#3 = average	#4 = poor
SSK = Super, Super Kid		B = overall body	
SK = Super Kid		SIZE = big, good, med, small	
FK = Fine Kid		HN = horns – diameter & spacing	
KID = low kid		teeth = teeth	
AK = average kid from adult		FT = foretop – 1 = real open face /distinct mohair look	
FYG = finer you goat/yr		HK = width & freedom of cow hock	
YG = regular, low yr		Ribs = spring of ribs	
FA = fine adult		HT = heart, chest width	
CHAR = character of mohair		CMT = Crooked mohair tail	
Length = measure side, back, britch		RAT = slick, rat tail	
K = kemp		SMT = straight, mohair tail	
Y = yield - #2 prefer some lanolin		Sct = scrotum size & inches split	
Un = uniformity		Toes = toes	
		Ud = udder/small teat	
		WW = walks wide	

JBR 9946 (75% TX) – He was in the top 10 PT index in 2000. His offspring have continued to perform well including the highest indexing buck in 2003. He is a big open faced, thick buck with a quality fleece. His sire was FLS 1516 (by FLS 607 by 404). 9946's mother was sired by HLRS 28.

JBR 0243 (75% TX) – Was a dense, fine, long stapled, uniform medium sized buck that had an open face and great body and leg structure. He was out of a fancy Flach doe and sired by JBR 9759 who was a son of the imported 422. Unfortunately, we lost him in a 2004 flood.

JBR 0408 (68% TX) – He is the sire of the '08 Kerrville Grand Champion Angora Goat. We kept this top 10 indexing 2005 PT buck because he combined a great body with fineness, style and character and a definite open face. He was sired by JBR 0243 out of a top JBR 9946 doe.

JBR 0452 (75% TX) – He was sired by JBR 0243 and is out of JBR 0132. She was sired by the great FLS 1382 and out of JBR 9659 – our great body doe.

JBR 0508 (81%TX) – This big, strong open-faced buck has done well in the show ring under 3 different judges. He is sired by JBR 0218 who has similar bloodlines as JBR 9946. His mother is a _ sister to JBR 0408's dam.

JBR 0529 (100% TX) – This large upstanding buck is impressive in the show ring and pasture with his straight topline, thickness, length and depth of body. His sire is BL 2226 (Crider) who was sired by FLS 1810. His dam is a Ross – Kuebel doe. We are saving a son of his from this year's P.T who is out of a BL 2226 doe for more line breeding.

BL 2226 (100% TX) – This Lockhart buck was purchased by Clayton Crider in our 2001 sale. He was Reserve Champion buck at TAGRA in 2005 at 5 years of age. He still has a uniform kid hair fleece, a large full scrotum, an open channel face cover, and he walks wide. He was sired by FLS 1810 and is out of a Lockhart doe that goes back to a line bred doe by their fine haired "Bill".

Speck Ranch Sires:

H-584 “Superfine” - This legendary Haby stud, along with H-787 “Son of Champ”, has provided the foundation of our herd. Both bloodlines have produced champions for Speck Angoras at all major shows in 1990 through 1999.

FLS2-404 - This buck bred true and produced super kids. He had excellent conformation with a wide spring of ribs, wide hindquarters, straight back legs, and strong typical horns. He carried a fine, ringlet yearling grade fleece and was uniform from neck to breech. His sire is 4P-210, grand sire is FLS8-43, and great-grand sire is H-787.

FLS1-249 - This was one of the finest fleeced, most uniform bucks we had. His sire is FLS9-68 and his dam, FLS9-76, is a daughter of “Superfine”. In 1994 he was the first place Aged Buck at the Kerrville, San Antonio, and Houston Jr. Stock Shows.

FLS6-1382 - When Hayden Haby & Jesse Lockhart saw this buck as a yearling, they called him the “perfect buck”. He has correct horns, thick body, and a fine ringlet long stapled fleece with kid hair. He is a son of 404 and has produced many excellent kids.

FLS8-1810 - A son of 1382, this buck still carries a fine ringlet kid fleece and has produced many excellent kids. He is one of our top producers. His mother is out of 249 and was on the show circuit. She won the Grand Champion Goat of Show in Kerrville in 1997.

FLS9-2224 - A son of FLS6-1382, this is a showy, big, extremely fine fleeced uniform ringlet haired buck.

FLS0-2350 - This is a fine-haired, showy buck, 100% Texan, and is a full brother to FLS8-1810. He also produces good kids.

FLS0-2392 - A son of 1810, this uniform-fleeced buck's dam is out of FLS1-249.

FLS0-2407 - Hayden Haby, Jesse Lockhart, and Joe David Ross purchased this buck at the 2001 HLRS sale. Hayden loaned him to me for one breeding season. His offspring have very fine uniform fleeces and an open face. He is a son of FLS 1337 (out of 607...404) The buck has maintained a ringlet, superkid fleece.

FLS0-2624 - This buck is 50% South African out of HLRS 28. He has an excellent conformation with thick spring of ribs and a square hip. His fleece is ringlet, fine and uniform. The dam is 404 bloodline.

FLS1-2898 - A son of FLS9-2224, this is our largest stud buck with an excellent thick body and ringlet uniform kid fleece. I own 1/2 interest in this buck with the Earwood family. His body can be attributed to his 1/2 S.A. mother out of HLRS-422. He produces excellent kids.

FLS2-3074 - A showy buck with a uniform ringlet fleece. His mother is out of 1810 and his sire was FLS 1723, a very fine fleeced buck out of HLRS 80.

FLS2-3136 - This showy buck combines a beautiful fleece with an excellent body conformation. He is a son of FLS0-2593. He is 100% Texan.

FLS2-3206 - This son of FLS8-1810 is 100% Texan and has a very fine fleece.

FLS2-3214 - This showy buck has a wide spring of rib and a beautiful ringlet fleece. He is 75 % Texan out of FLS0-2593.

FLS2-3322 - This buck is out of FLS9-2224 and has a n excellent body conformation and uniform fleece. His mother is out of HLRS 422.

FLS3-3407 - This 100% Texas bred buck is out of FLS1-2763. He is a large buck with an open face and a fine fleece.

FLS3 3505 - This son of FLS1-2898 has produced great kids. He is big, robust, open faced and has a ringlet, kid fleece. We kept two yearling bucks this year that he sired.

FLS4-3724 - A son of FLS2-3214, this is a fancy, fine fleeced buck.

FLS5-4153 - A son of FLS3-3505, this buck has a wide body and uniform fleece. His mother is a granddaughter of FLS6-1382.

FLS5-4199 - Haby told me to keep this huge, long bodied buck with a ringlet fleece. His father is FLS1-2844 (a full brother to 1810 & 2350).

FLS5-4327 - I love the fine, ringlet, dense fleece on this showy buck. He is out of FLS9-2224.

------	---------	-----	------	-----	--------	-------	-------

34 HLRS 0738 Buck BJD 2306 HLRS 0413 HLRS 50% TX _____

A big robust AK uniform (Un 1.2) fleeced buck that speaks well of the Duvall and Barbara Sanders breeding programs mixed with S. Afr. genetics. We would like for him to have a 'pinker' ear but he scores B1, WW, HN 1, Sct 1, and SMT. His dam was sired by HLRS 517 (a definite open face with a great body & yearling type fleece) that Joe David kept at the ranch. Her 8 year old mother rated YG, B1, FT 3, Un 2.2, and Ud 1.

35 FLS7 4831 Buck FLS4 3724 FLS0 2351 Speck 93.75% TX _____

A long bodied buck with a thick spring of rib, he is showy with a fine, soft, dense fleece. We considered keeping this buck as a stud. His mother is the sister of our stud buck 2350.

36 JBR 0715 Buck JBR 0452 JBR 9990 Ross 75% TX _____

This buck is a twin to Franklin Buchholz's wether in the '08 San Angelo Futurity that was reserve champion of the heavy weight class. He is fine enough with character, lanolin and a great body like his big 8 year old dam that we just keep breeding. Her scores are K3, B1, Ud 1, YG, WW, and FT 1.

37 FLS7 4890 Buck FLS0 2624 FLS3 3439 Speck 75% TX _____

This is a showy long bodied buck with a soft uniform fleece. His lock style has excellent style and character. His mother is out of 2844.

38 JBR 0722 Buck AE 2297 JBR 0242 Ross 87.5% TX _____

Shorn 02-15-08. We like this late shorn, open face buck that is really uniform that also scores well -- SMT, WW, and Sct 1. This sale buck's grandsire on the dam side is by Hobson 04. The big 5 year mother scores FT2, FYG, Ud 1, and SMT.

39 FLS7 4922 Buck FLS9 2224 FLS6 1208 Speck 100% TX _____

This showy buck has a ringlet fleece with excellent style and character. His dense fleece is long stapled and will shear many pounds. His mother is a stud doe out of 249 and we have three keeper does out of her.

YEARLING BUCKS

------	---------	-----	------	-----	--------	-------	-------

40 JBR 0711 Buck JBR 0529 JBR 0116 Ross 75% TX _____
 Shorn 2-20-08. One of grandson Robert Buchholz's show buck kids that was the "eye-catcher" open faced, meat and quality mohair. Sct 1, HN 1, WW. His large, open face dam still has a FYG fleece, B1 and Ud 1.

41 FLS7 4928 Buck FLS2 3136 FLS9 2061 Speck 100% TX _____
 We considered keeping this showy buck. He has a thick spring of ribs, level rump and a very soft, dense, uniform, ringlet fleece. His mother is a 404 granddaughter.

42 JBR 0706 Buck JBR 0508 JBR 9922 Ross 78% TX _____
 Shorn 02-20-08. His sire won 1st place Aged buck @ San Angelo. His 8 year old dam has a FYG fleece, Ud 1 and a WW score. One of grandson Franklin Buchholz's show bucks that placed at Kerrville & San Angelo.

43 FLS7 4775 Buck FLS3 3505 FLS9 2180 Speck 87.5% TX _____
 An open faced buck, he carried lots of hair with a dense, long stapled, ringlet fleece. His mother is a 1382 daughter.

44 JBR 0733 Buck AE 2297 JBR 9830 Ross 75% TX _____
 Shorn 02-20-08. This buck was shown by Dalton Buchholz. We like his good size, open face (FT2) body structure (B1), uniformity (Un), straight mohair tail (SMT) and he walks wide (WW). The 10 year open face doe raises a kid every year in the pasture – Ud1, B1, YG-FA.

45 FLS7 4818 Buck FLS3 3505 FLS1 2830 Speck 81.25% TX _____
 We considered keeping this 2008 show buck of Tyler's. He was shorn later. He is big, long bodied, has a level rump and a dense fleece with luster. His mother is a 404 granddaughter. His sister is Lot # 6.

46 JBR 0750 Buck BL 2271 JBR 0108 Ross 50% TX _____
 This medium sized buck has a twin sister. He has show ring stud potential because of his pedigree, alertness, and a large full scrotum. All of his fleece can go into the kid bag. His mother is by the big Performance Test JBR 9735 and a Speck doe. The dam is rated FT 2+, Ud 2.2, B 1, HK 1.4, and FYG

------	---------	-----	------	-----	--------	-------	-------

47 FLS7 4972 Buck FLS3 3407 FLS7 1782 Speck 75% TX _____

This showy buck combines an excellent body with lots of hair. He has a level rump, thick spring of ribs, and a dense, soft fleece with bright luster. His mother is out of 422 and has produced 2 stud bucks for us. We considered keeping this buck.

48 HLRS 7-868 Buck HLRS 1-494 HLRS 199 HLRS 100% SA _____

Notice the consistency of body structure, spring of ribs, horns, soft fleece & style, well covered and a straight mohair tail (SMT) that goes with "King's" (1-494) thick hind quarters. His 9 year old mother still has good teeth and Ud 1.

49 FLS7 4941 Buck FLS2 3136 FLS1 2897 Speck 100% TX _____

This goat has a dense, uniform ringlet fleece that is very soft. He will shear lots of hair and has excellent body conformation. His mother is out of 2224.

50 JBR 0754 Buck HLRS 1-494 JBR 0326 Ross 37.5% TX _____

Notice his great body structure and thickness. He is well covered with an extra staple length soft fleece that should make him a potential sire for futurity wethers. "King", the sire, walks as wide as any buck that JBR has raised. The dam scores Ud 2.4 but sire also had a great body.

51 FLS7 5011 Buck FLS0 2350 FLS8 1912 Speck 100% TX _____

This showy buck has a dense fleece with 1+ grease and excellent luster. His mother has produced several keeper does for us and the high selling doe at the 2004 HLRS sale - \$1800.

52 JBR 0707 Buck JBR 0529 JBR 0254 Ross 75% TX _____

Shorn 02-15-08. He has a large full scrotum and walks wide. His mother is by a "keeper" Performance Test buck, JBR 9973. She scores Ud 1.6 with a FYG fleece at 5 years of age.

53 FLS7 4822 Buck FLS9 2224 FLS4 3898 Speck 93.75% TX _____

This well balanced goat combined a thick spring of rib, level rump, and lots of hair. He has a very long stapled fleece with excellent luster. His mother is an 1810 daughter.

YEARLING BUCKS

------	---------	-----	------	-----	--------	-------	-------

54 JBR 0723 Buck SANS 1670 JBR 3394 Ross 87.5% TX _____

This well covered Un 2, B 1, SMT; Sct 2.2 buck has extra staple length with soft fineness. The Samson buck makes a good out cross since he represents some older TX bloodlines. The mother scores FT2, UD1, YG, and SMT.

55 FLS7 4968 Buck FLS5 4199 FLS3 3626 Speck 75% TX _____

This big, showy upstanding buck has a dense, long stapled fleece with excellent luster. His mother is out of 2224.

56 JBR 0745 Buck JBR 0218 JBR 0286 Ross 93.5% TX _____

This is a fine haired open face buck with a good full scrotum. His sire also sired JBR 0508 (1st @ San Angelo). The dam is by 2671 FLS and a granddaughter of the great Kuebel 1104. She rates – big, fine young goat, HK 2, Ud 1, extra lanolin.

57 FLS7 4777 Buck FLS0 2350 FLS0 2668 Speck 100% TX _____

This thick bodied buck is showy and has a dense, fine fleece with lots of hair. His mother is a 1382 daughter. His sister is Lot # 20.

58 JBR 0729 Buck JBR 0529 JBR 0432 Ross 87.5% TX _____

No Papers. Another “money maker” type that we prefer – open face; a large full slick scrotum, and proper body structure with quality mohair. The dam was sired by JBR 9759, a medium sized, fine haired 50 % TX who sired JBR 0243 another good buck who sired JBR 0408 and JBR 0452.

59 FLS7 4745 Buck FLS3 3505 FLS0 2629 Speck 81.25% TX _____

This showy buck was on Tyler’s 2008 show string and was shorn later. He is a big long bodied buck with a ringlet, kid fleece. His mother is an 1810 daughter.

60 FLS7 4957 Buck FLS3 3505 FLS3 3685 Speck 81.25% TX _____

This showy buck has a long stapled, soft, ringlet fleece and thick spring of ribs. His mother is a 1810 granddaughter.

61 FLS7 4843 Buck FLS3 3407 FLS4 3784 Speck 87.5% TX _____

This showy buck is long bodied, with a soft uniform ringlet fleece. His mother is out of 3136.

62 FLS7 4849 Buck FLS5 4153 FLS4 3975 Speck 87.5% TX _____

This is an alert, upstanding open faced long bodied buck. He has a fine uniform ringlet fleece that is very soft to touch. His mother is out of 3206.

63 FLS7 4720 Buck FLS4 3724 FLS2 3143 Speck 81.25% TX _____

He has a dense, uniform fleece with 1+ grease. He was on Tyler's 2008 show string and was shorn late. His mother is a 2350 daughter. We kept his sister last year.

64 FLS7 4848 Buck FLS3 3505 FLS4 4001 Speck 81.25% TX _____

This a showy well balanced buck with a uniform soft fleece. His mother is out of 3136.

65 FLS7 4753 Buck FLS1 2898 FLS4 3916 Speck 87.5% TX _____

This showy upstanding long bodied buck has a very fine, ringlet kid fleece with 1+ grease. If his horns were more correct we would have considered keeping him. His mother is a 1382 granddaughter.

66 FLS7 4758 Buck FLS0 2407 FLS9 2273 Speck 87.5% TX _____

This buck has a dense, fine, uniform fleece with 1+ grease. His mother is a 1382 daughter.

67 FLS7 4820 Buck FLS2 3214 FLS0 2479 Speck 87.5% TX _____

This classy goat was shown by Cole Speck in 2008 and shorn late. A medium sized goat, he is a well balanced goat with a ringlet, very fine, soft dense fleece.

68 FLS7 4732 Buck FLS3 3407 FLS0 2678 Speck 75% TX _____

This long bodied buck has a very soft, uniform, ringlet fleece. His mother is a 404 granddaughter who has produced three keeper does for us.
