

THE SIXTH JOINT HABY-LOCKHART-ROSS ANGORA GOAT PRODUCTION SALE

Zach Davis Family

**HILL COUNTRY FAIRGROUNDS
JUNCTION, TEXAS
JULY 24, 1993
9:30 A.M.**

Guest Consignors: Pat Jackson and the Speck Family

WELCOME TO THE SIXTH Haby-Lockhart-Ross Angora Goat Production Sale.

We are pleased to announce the addition of Pat Jackson and the Speck family as guest consignors this year.

Even though we five breeders have similar standards and breeding programs, the animals have been raised in different environments, management and kidding dates. Please make note of these differences and make visual and lab report comparisons of individual animals from within that specific herd.

BREEDER'S GUARANTEE— Should any goat be proven to be a non-breeder its first breeding season, please notify the particular breeder. Common sense and fairness by both the seller and buyer should prevail. If the animal has not been neglected, fed excessively, exposed to a disease after the sale, loaned out or sold to another party, etc., the animal may be returned for replacement after agreement by the seller. **No guarantee can be made as to how the goat will cross with your goats.** The goats should be allowed adequate time to adapt to their new location after transportation.

TERMS are cash or check. Should any dispute arise from the taking of bids, the auctioneer's decision will be final.

HEALTH CERTIFICATES — A few blood tests have been performed in advance on some. Any potential buyer should check in advance with his state's veterinary health requirements and be prepared to make necessary arrangements.

COMMENTS and MICROSCOPIC LABORATORY reports are provided to give you additional information as you examine certain goats for your specific needs. The lab reports were taken from the **Spring fleece** (2nd shearing). The entire fleece is placed in the multiple coring machine so as to get a reading for the complete fleece— not just the pretty locks on the side. Therefore, the reported average micron includes the usually coarser neck fibers. Most of the fleece will actually grade out finer than recorded. Kemp and med fibers are related but separate undesirable traits. They cannot always be seen with the naked eye and frequently do not correlate to those fibers seen down the back. Be concerned about any kemp in excess of 1%. Some say the commercial trade wants it no more than 0.5% More is to be learned about med fibers. Be concerned if the reports exceed 5%. We prefer even a lower percentage.

Lock type descriptions used by the breeders will vary. The words ringlet or C-type web are actually referring to a fine haired goat with a narrow base lock usually less than 1/2 inch wide. A middle-of-the-road or a moderate flat lock may be just as fine and have just as much character but the lock at this age will be 1/2" to 1" wide.

Look at the goats closely and feel free to ask questions.

Thanks for your interest and support. We will see you at the other remaining sales. We will have a few bucks for sale at the Performance Test Sale on July 29 at the Sonora Experiment Station and hope you can attend the Harper sale this afternoon.

Thanks again to the Extension Service and breeders who helped with the hands-on culling program held yesterday afternoon.

REFERENCE SIRES - HABY RANCH

PS 3017 – This Pember buck was Performance Test Lot #168. We bought him at the 1991 sale.

AB 1817 – This is a big, long bodied, Allen Belk buck that breeds fine uniform fleeces.

SHS 65 – This is a huge, extremely fine and uniform son of “Superfine” bred by Stuart Speck.

H 1676 – This was our best buck we tested at the different ranches during the mid 80’s. He is by GLS 1722, a fine haired son of the great Schmidt sire 1424.

H 584 “Superfine” – Sired by Brooks Sweeten 9735 and out of a daughter of Haby “Winnie the Poo.” He was a big buck with a fine, uniform, highyielding fleece. He was the second largest buck at the First Performance Test and was the first sire used by the research station in the fine-haired project. The South Africans were very much impressed with this buck in his second fleece. The Holmann, Speck and Poe families have had tremendous success with some of his offspring in the show ring, fleece shows and the performance test.

JBR 7814 “Champ” – This has been a truly outstanding sire in the Ross, Haby and Lockhart flocks. He transmits fleece quality plus other important economic factors, i.e. mothering and milking ability, vigor and reproduction. He was champion at Kerrville and San Antonio in the early 80’s.

H 901 – Sired by Earwood 5554 and dam H 901, a daughter of PS 332. He had the highest index in the 1984 test, index value 84.4, 17.3 clean fleece weight, final weight 169 lbs. He sired the buck with the third highest index in 1986, and helped us win the British Mohair Spinners Award.

PS 357 – We bought this big, uniform fleeced Pember buck at the Junction Hill Country Fair Sale.

PS 1132 – Sired by Brooks Sweeten 9309 and dam PS 784. This buck has sired some top performing bucks at the Performance Test.

REFERENCE SIRES — LOCKHART RANCH

BL 940 "Fancy"

SIRE: BL 277 "Bill"

DAM: BL 194

The fleece on BL 940 is similar to the mohair on the South African goats. This buck has a uniform, ringlet fleece with excellent style and character. Fancy has a good square body and stands well on his feet. Jim and Donna Eggemyer and the Batla Brothers purchased half interest in BL 940 for \$2500 at our third production sale.

BL 965 "John"

SIRE: BL 277 "Bill"

DAM: BL 798

This son of Bill has a uniform ringlet fleece with excellent staple length. He is a linebred Koontz bloodline buck. This is our 40th year to linebreed this bloodline of goats. John Beckham paid \$2500 for half interest in our third production sale.

BL 471 "Bill Jr."

SIRE: BL 277 "Bill"

DAM: Craddock 148

Bill Jr. is the best bodied fine haired buck we've raised. He has sired some good goats in the Pat Jackson herd. Craddock 148 was purchased at the Ahlschwede dispersal sale. She was champion doe at all the major shows.

BL 277 "Bill"

Bill's sire is PS 332, who sired some of the best goats in the country. He was used successfully in the Orr, Haby, Pape, Lockhart and Pember herds. Bill's fleece tested 27 microns when he was an aged buck. Bill was used in the Lockhart, Haby, Ross, Giles and Dick Herndon herds. Several sons of Bill are stud bucks. Bill was champion buck at Kerrville. His mother was a linebred Koontz doe with a Howard Hay outcross in her pedigree. She died at age 13.

Speck 210

This Speck raised buck is an upstanding, large bodied, uniform fleeced goat with a mohair tail. He is sired by FLS8-43, a full brother to FLS9-90, and a Haby bred doe. He has been Champion or Reserve Champion buck at several major shows in 1992 and 1993.

Kuebel 814

Out of a top Kuebel doe, he was sired by Early 2 (a son of GLS 1424). As a yearling (3rd shearing) his fleece tested 29 microns. In the 1992 HLR Joint Sale, the Zac Davis syndicate purchased a son of 814 from the Haby herd for \$5600. Several other sons have sold at the TAGRA Rocksprings sale up to \$4400 (Dick Karnes) and at the Performance Test up to \$1900. Sons of these bucks have produced top indexing (Dick Karnes) and top selling (Ross) bucks at the 1992 Performance Test. We would like to thank Fritz for selling K 814 to us.

REFERENCE SIRES — ROSS RANCH

JBR 8734 – This buck is straight Ross breeding for at least two generations. He has good size, stands well on all four feet, has correct horns and has a fancy, uniform fleece. We would like for him to have more oil in his fleece. We think you will like his offspring, and we are looking forward to the cross on K 957's young does.

JBR 9031 – A young sire by K 957 and out of a Pember-Ross bred doe who kidded regularly and carried a high quality fleece until she was 10 years old.

PS 2294 – A medium-sized, thrifty, stylish, fine-haired Pember billy that we purchased with Giles and Lockhart at the 1986 TAGRA Rocksprings Sale.

RK 221 – This buck was bred by Dick Karnes of Sonora and shown by April Spiller in the 1991 Kerrville and San Antonio shows where he was Champion or 1st under three different judges. He was a large, long bodied goat with uniform character and above average lanolin. He was sired by a fine haired Steiler buck and out of a Haby-Earwood bred doe. Thanks to Dick for allowing us to breed a few young does to him before he met an untimely death.

K 957 – He is a Kuebel buck that indexed in the top 10 at the 1989 Performance Test. His sire is K 814, one of the finest haired bucks in the state. K 814 was sired by Early 2 of GLS breeding. We purchased K 957 because he was uniform with a curl, has good horns and is free of kemp. He was the sire of the top selling buck at the 1992 Performance Test - purchased by Ben and Virginia Epps.

JBR 8243 – A grandson of JBR 7814, Champ. He was our largest and finest kid raised in 1982. He represents "Livability for Easy Care." His sire, JBR 8012, produced the Grand Champion fleece at the 1981 Sonora Wool & Mohair Show. We like his offspring from our Ross-Schmidt does. He also crossed well with Robin Giles' fine-haired, thrifty flock. 8243 weighed 220 pounds. He died in 1990, but his fleece still had that beautiful style. He was a very fertile breeder. Note the mohair tails on his offspring - unusual for a large buck with a correct body.

JBR 8471 – A large bodied, fine haired, show string buck whose sire was a large Pember buck, PS 1119. His mother was a Ross doe that carried a high quality, above average lanolin fleece. His type of mohair lock would be classified as a moderately uniform, flat lock. He weighed 200 pounds, had excellent rated horns, stood well on all four feet, and had a thick, meaty body with a mohair tail. He was well covered, but his good mother would be faulted for a light chin cover and slightly chalky ears. He is sire of JBR 8878 that C.E. Renfro and Pat Jackson purchased.

REFERENCE SIRES — JACKSON RANCH

JXN 637 – This buck was born from an embryo transfer in 1988. His sire is Lockhart BL 277 and his dam is Pember PS 1421 that was Reserve Champion at the Texas Sale. 637 is a well balanced buck that throws a soft, uniform fleece.

JXN 835 – This buck was a beauty as a kid. His sire is JXN 38 who was Champion at Houston and San Antonio as a yearling. His dam is a big, robust doe that is by GLS 1870. 835 has sired a several bucks that have done well at the Sonora Performance Test Sale including Tag #229, the top selling goat at the 1991 Test sale. Another son was purchased by Judy McDonald for \$1900 at the 1992 Performance Test Sale.

JXN 931 – 931 is the biggest, finest, most uniform buck that we have on the ranch. He is long necked, long bodied and has pretty blue eyes. His sire is Lockhart's Bill Jr. and his dam is JXN 9. We bred Bill Jr. a couple of years and he really clicked with our does. JXN 9 is sired by Haby H 82, who continues to appear in the pedigrees of our top goats.

JXN 987 – This is our first year to evaluate the offspring of this uniform, dense buck. His sire is GLS 1870 and his dam is PS 1322. 987 had the prettiest fleece on the ranch for his age this past fall. We had to give him a chance to show his stuff.

"Pair of Diamonds"
Mohair Council of America

REFERENCE SIRES — SPECK RANCH

H 584 "Superfine" – This legendary Haby stud, along with H 787 Son of Champ, has provided the foundation of our herd. Both bloodlines have produced champions for Speck Angoras at all major shows in 1990, 1991, 1992 and 1993.

GLS 3344 – This Schmidt buck purchased at the Texas Angora Goat Raiser's Sale has a very fine, long stapled fleece. We are pleased with his offspring.

JBR 8729 – This Ross owned buck has a fine, beautiful, ringlet fleece uniform from neck to britch. His mother was champion doe at the 1986 Dallas Fair. He is the buck with the kids on the back cover of the June 1993 Ranch Magazine.

PS 3017 – Hayden Haby purchased this Pember buck at the 1991 Performance Test. He exhibits excellent breed character and is robust with a fine fleece.

PS 357 – Owned by Haby, this Pemper buck is a big, uniformly fleeced animal.

FLS9-90 – This buck is out of a long stapled, fancy Pember doe and sired by H 787 Son of Champ. He combines a fine fleece with a correct conformation and breed character. A 1992 buck kid he sired won Grand Champion Fleece at the 1993 Sonora Wool & ohair Show. Son of Champ was sired by JBR 7814 Champ.

FLS9-68 – Sired by H 787 Son of Champ, this uniform, dense fleeced buck has a thick body with straight legs. He consistently sires quality kids.

SHS 65 – This son of H 584 Superfine has a huge, correct body and a very fine fleece. He lacks density but produces our largest kids.

Sarah and Laura Speck with friends and 2 Champions

BREEDER'S EAR INITIALS:

H-Haby; BL-Lockhart; JBR-Ross; JXN-Jackson; FLS-Speck

Shearing Dates: Except where noted, all goats were shorn on Feb. 1 or the last of January.

Each breeder picked 2 of the better ones to start the sale order, but the goats are not placed.

LOT 1	JBR 9281	Sire: PS 2294	Dam: JBR 8848
	Micron = 24.4	% Kemp = 0.1	% Med = 0.7

A fancy, uniform "C-web" type lock with good lab figures including a 6.3 standard deviation of diameter. She is well covered. Her mother is a twin by the Early 2 (GLS breeding) who was the sire of Kuebel's 814.

LOT 2	BL 1212	Sire: BL 277 Bill	Dam: BL 456
	Micron = 26.1	% Kemp = 0.2	% Med = 0.1

This TWIN has excellent staple with a high yielding fleece. She is uniform with a soft fleece.

LOT 3	H 3382	Sire: SHS 65	Dam: H 2275
--------------	--------	--------------	-------------

Probably the best doe we will sell.

LOT 4	FLS2-345	Sire: JBR 8729	Dam: BS 986
--------------	----------	----------------	-------------

This well covered doe has a uniform, long stapled fleece.

LOT 5	JXN 2336	Sire: JXN 987	Dam: C 3044
--------------	----------	---------------	-------------

C 3044 is a Top Chaney doe. The Chaney genetics always breed true with excellent quality.

LOT 6	JBR 9270	Sire: JBR 9031	Dam: JBR 9073
	Micron = 24.8	% Kemp = 0.6	% Med = 0.3

Another classy and very alert female with good body structure as well as a mohair tail. JBR 9073's dam is JBR 8625 who has a body score of excellent and still produces uniform, narrow-based, yearling mohair.

LOT 7	BL 1292	Sire: Kuebel 814	Dam: BL 972
	Micron = 25.0	% Kemp = 0.7	% Med = 0.6

A fine fleeced doe with excellent feel. She is well covered from tail to hoof with good style and character. Her dam is out of BL 162, Wild Indian, and H 888, Pistol, bloodlines.

LOT 8	H 3530	Sire: SHS 65	Dam: H 1255
--------------	--------	--------------	-------------

A uniform, fine, dense fleeced doe with good length.

LOT 9 FLS2-371 Sire: JBR 8729 Dam: H 2665
This full bodied doe has a beautiful, long stapled fleece. Her mother has one of the longest stapled fleeces in our herd.

LOT 10 JXN 2252 Sire: JXN 637 Dam: JXN 722
J-722 is by Bill Jr. and out of a Top Earwood doe.

LOT 11 JBR 9252 Sire: JBR 8734 Dam: JBR 8830
Micron = 27.6 % Kemp = 0.4 Med = 1.6
This big doe has the balance of body and uniformity that we like. The dam was sired by kemp-free Kuebel 554 and out of our largest doe (by Lockhart's Nuggett).

LOT 12 BL 1242 Sire: Speck 210 Dam: BL 939
Micron = 27.0 % Kemp = 0.5 % Med = 0.2
A granddaughter of JBR 8243 "Mr. Livability" buck, she has a long deep body with ample oil. This doe chins up well, is well covered and has a mohair tail. She is a proven breeder with a kid at her side sired by Bill Jr.

LOT 13 H 3420 Sire: AB 1817 Dam: H 8018
A big, dense, fine, soft fleeced doe out of Earwood breeding.

LOT 14 FLS2-366 Sire: FLS9-90 Dam: FLS9-109
This doe's mother is a daughter of H 584, Superfine. She has a high yielding, long stapled fleece.

LOT 15 JXN 2226 Sire: JXN 987 Dam: C 3170
C 3170 is a consistent breeding Chaney doe with a lot of quality.

LOT 16 JBR 9209 Sire: JBR 8734 Dam: JBR 8738
Micron = 28.3 % Kemp = 0.5 % Med = 0.2
Another big, correct body, long stapled doe with an open face, but a heavy chin cover. We would like for her to be more uniform on the neck. Her dam is an "embryo transfer" offspring of the H 901 sire who topped the 1984 Performance Test.

LOT 17 BL 1250 Sire: BL 471 Dam: Trees 2041
Micron = 27.4 % Kemp = 0.3% Med = 0.5
A dense, well covered doe of Roland Trees blood.

LOT 18 H 3648 Sire: AB 1817 Dam: H 6532
This doe is straight Earwood breeding.

LOT 30	JBR 719	Sire: H 2836	Dam: JBR 8487
	Micron = 27.1	% Kemp = 0.4	% Med = 0.9

Good size and body scores. Well covered. Her sire is a son of Superfine. The dam is by the big Sweeten buck BS 297.

LOT 31	BL 1294	Sire: BL 940	Dam: BL 996
	Micron = 28.3	% Kemp = 0.5	% Med = 0.8

A long bodied, dense fleeced granddaughter of Bill. She traces back to the Haby "Poo" bloodline.

LOT 32	H 3574	Sire: PS 357	Dam: H 1666
---------------	--------	--------------	-------------

This doe's dam is by Ebeling 566.

LOT 33	FLS2-354	Sire: JBR 872g	Dam: FLS0-125
---------------	----------	----------------	---------------

This is the largest bodied doe we have in the sale. She has a soft, fine fleece. Her mother, a daughter of Superfine, was Champion Doe at Houston in 1992.

LOT 34	JBR 9216	Sire: JBR 8734	Dam: JBR 8677
	Micron = 25.0	% Kemp = 0.6	% Med = 0.1

This twin doe's mother has been a good producer. JBR 8677 is by the high indexing, performance tested buck 251 of Ruth Espy's. JBR 8677's fancy doe kid brought the top price of the year in 1990.

LOT 35	H 3468	Sire: PS 3017	Dam: H 1041
---------------	--------	---------------	-------------

This doe's dam is by PS 1132.

LOT 36	FLS2-413	Sire: H 584	Dam: FLS0-143
---------------	----------	-------------	---------------

This doe's mother is out of FLS8-43. She has a soft, fine fleece.

LOT 37	JBR 9266	Sire: JBR 4103	Dam: JBR 8962
	Micron = 26.9 % Kemp = 0.5		% Med = 0.8

Her sire was Grand Champion at Houston in 1985 and his average micron was 32 at the Performance Test. His sire was PS 1119. The dam is by JBR 8573.

LOT 38	H 3537	Sire: H 124	Dam: H 1936
---------------	--------	-------------	-------------

This doe's dam is by Lockhart 162.

LOT 39	FLS2-346	Sire: PS 357	Dam: FLS0-166
---------------	----------	--------------	---------------

A granddaughter of Superfine, this is a well covered doe with a long stapled fleece.

LOT 40	JBR 9259	Sire: JBR 4103	Dam: JBR 8838
---------------	----------	----------------	---------------

Open face with a heavy chin cover that we like. Same sire as LOT 37. Her dam is by the Early 2 buck of GLS breeding.

LOT 41	JBR 9239	Sire: H 2836	Dam: JBR 8544
	Micron = 25.0	% Kemp = 0.5	% Med = 2.1

Good size and body with a relatively uniform fleece and a mohair tail. Her sire is by Superfine, and her dam is by a Lockhart buck.

LOT 42	JBR 704	Sire: JBR 8713	Dam: JBR 8464
	Micron = 27.5	% Kemp = 0.6	% Med = 0.8

Dense with an open face but a heavy chin and neck cover. Her sire is a son of JBR 8243 "Mr. Livability." The Ross bred dam has produced two does for our sale.

LOT 43	JBR 9247	Sire: JBR 8734	Dam: JBR 8338
	Micron = 26.4	% Kemp = 0.2	% Med = 0.7

Shedding some on the chin but a big, fine narrow base lock doe with uniformity. Her 11 year old dam has been a regular producer and was sired by a fine haired Ross buck.

LOT 44	BL 1279	Sire: BL940	Dam: BL 654
---------------	----------------	--------------------	--------------------

This TWIN has a uniform, soft fleece with good staple, and she is well covered with strong horns. BL 1279's dam is a granddaughter of BL 170 Nugget.

LOT 4	H 3544	Sire: PS 357	Dam: H 2097
--------------	---------------	---------------------	--------------------

This doe's dam is by Ebeling 566.

LOT 46	FLS2-416	Sire: FLS9-68	Dam: FLS0-141
---------------	-----------------	----------------------	----------------------

This is a structurally correct, well covered doe with a fine, ringlet fleece. Her mother is out of Superfine.

LOT 47	JXN 2264	Sire: JXN 987	Dam: JXN 600
---------------	-----------------	----------------------	---------------------

J-600 is our top embryo transfer doe. She is a high yielding, ringlet fleeced doe.

LOT 48	JBR 9269	Sire: JBR 9031	Dam: JBR 9042
	Micron = 22.9	% Kemp = 0.2	% Med = 1.6

Our finest haired doe of this year's crop. She is bred to be a good producer. Her sire represents Kuebel-Pember-Ross, and the young mother is by the fancy, good bodied JBR 8734.

YEARLING BILLIES

LOT 49	FLS2-358	Sire: FLS9-90	Dam: FLS0-101
---------------	-----------------	----------------------	----------------------

This buck was on the 1993 show circuit and was shorn late (Mar 15). His mother is a daughter of Superfine H 584. He is a long bodied, upstanding, uniformed fleeced buck and is one of our top stud prospects.

LOT 50	BL 1230	Sire: Speck 210	Dam: BL 725
	Micron = 30.0	% Kemp = 0.3	% Med = 0.6

This TWIN goes back to the Koontz bloodline which has bred most of our stud bucks. He has a good square body, uniform, high yielding fleece with good style and character. May be considered a stud buck candidate.

LOT 51	JXN 2407	Sire: JXN 835	Dam: JXN 1456
---------------	----------	---------------	---------------

This stylish, well balanced buck is Haby's top pick of the Jackson group. His mother was in our show herd as a doe kid.

LOT 52	H 3552	Sire: PS 3017	Dam: H 1786
---------------	--------	---------------	-------------

We think that this is the best buck we will offer. His dam is by PS 1132.

LOT 53	JBR 9260	Sire: JBR 8734	Dam: JBR 8868
	Micron = 26.4	% Kemp = 0.3	% Med = 0.4

Excellent cover and breed character about the head that carries uniformly (S.D. = 6.7) through to a straight mohair tail and hind legs. His sire was the #1 pick of our '87 billy kids, and his dam was the #1 pick of our '88 crop. She is by the big bodied, moderate, flat locked JBR 8471 and out of a fine haired daughter of JBR 7814 Champ.

LOT 54	FLS2-351	Sire: JBR 8729	Dam: 4P215
---------------	----------	----------------	------------

This classy, large buck has correct horns and a very fine, uniform, ringlet fleece. His mother is out of FLS8-43, a full brother to FLS9-90. FLS8-43 was Champion at Houston in 1990. The dam's mother was H 1496, Champion Doe at San Antonio in 1988.

LOT 55	BL 1305	Sire: BL 940	Dam: BL 732
---------------	---------	--------------	-------------

A fine haired buck with a good square body typical of BL 940's offspring.

LOT 56	JXN 2287	Sire: JXN 931	Dam: JXN 1180
---------------	----------	---------------	---------------

This uniform buck has the genetics to perform well by all standards.

LOT 57	H 3253	Sire: Speck 210	Dam: H 1113
---------------	--------	-----------------	-------------

This buck was in the Speck show string and was shorn late. His dam is a very fine fleeced doe by PS 1132. He has size and a uniform fleece.

LOT 58	JBR 9248	Sire: JBR 8734	Dam: JBR 8567
	Micron = 28.9	% Kemp = 0.1	% Med = 0.2

Our largest billy and he shows balance among all of the economic traits with a high yielding, uniform fleece, long staple and a mohair tail. His mother is Kuebel-Ross bred.

LOT 59	FLS2-357	Sire: GLS 3344	Dam: FLS0-171
---------------	----------	----------------	---------------

Sired by our Schmidt buck and out of a daughter of FLS8-43, this uniform, long-stapled, ringlet fleeced buck will be heavy shearing.

LOT 60	BL 1255	Sire: BL 940	Dam: BL 640
---------------	----------------	---------------------	--------------------

Micron = 30.0	% Kemp = 0.1	% Med = 0.6
----------------------	---------------------	--------------------

This heavy shearing TWIN has a middle of the road type fleece with good luster. He has a good, correct, long and deep body with a mohair tail.

LOT 61	JXN 2181	Sire: JXN 835	Dam: JXN 84
---------------	-----------------	----------------------	--------------------

J-84 is by GLS 1870 and out of a good Haby doe.

LOT 62	H 3434	Sire: SHS 65	Dam: H 1697
---------------	---------------	---------------------	--------------------

We like the fleece density and staple length of this buck. His dam is by GLS 1722.

LOT 63	JBR 9236	Sire: JBR 8734	Dam: JBR 8528
---------------	-----------------	-----------------------	----------------------

Micron = 28.4	% Kemp = 0.0	% Med = 0.1
----------------------	---------------------	--------------------

An excellent lab report with great fleece character, but we would like for his horns to be spaced further apart. His dam is by the fine haired GLS 1722 (son of GLS 1424) that Haby and Ross used in the mid '80's.

LOT 64	FLS2-299	Sire: GLS 3344	Dam: FLS3-34
---------------	-----------------	-----------------------	---------------------

This strong bodied, showy buck is the densest fleeced goat we have in the sale. His mother is out of H 787.

LOT 65	BL 1213	Sire: BL 277, Bill	Dam: BL 456
---------------	----------------	---------------------------	--------------------

Micron = 26.9	% Kemp = 0.0	% Med = 0.3
----------------------	---------------------	--------------------

This TWIN is sired by our great herd sire, Bill, and has a nice square body.

LOT 66	JXN 2189	Sire: JXN 835	Dam: JXN 1568
---------------	-----------------	----------------------	----------------------

J-1568 is by BL 727 and out of a good Chaney doe.

LOT 67	H 3451	Sire: H 1676	Dam: H 770
---------------	---------------	---------------------	-------------------

This big, range buck should help most commercial flocks.

LOT 68	JBR 9281	Sire: JBR 8734	Dam: JBR 8829
---------------	-----------------	-----------------------	----------------------

No lab tests available for this long bodied buck. He is well covered, has silky ears with a narrow-based staple length that carries uniformly down the back and britch. Both he and his medium sized dam have correct mohair tails. His dam is by Early 2 (GLS).

LOT 69	FLS2-287	Sire: GLS 3344	Dam: FLS9-75
---------------	-----------------	-----------------------	---------------------

With a square, robust body, this buck has a long stapled, soft fleece. His mother is out H 584 Superfine.

LOT 70	BL 1246	Sire: Speck 210	Dam: BL 958
	Micron = 28.4	% Kemp = 0.0	% Med = 0.5

This TWIN has a brother also selling. A large boned, deep bodied goat with a mohair tail, and he is very well covered to the hoof. This potential stud buck exhibited good breed character.

LOT 71	JXN 2273	Sire: JXN 987	Dam: JXN 1246
---------------	----------	---------------	---------------

J-1246 is a Schmidt - Chaney cross.

LOT 72	H 3482	Sire: PS 3017	Dam: H 1130
---------------	--------	---------------	-------------

This is our finest fleeced buck. His dam is by BL 277 Bill.

LOT 73	JBR 9201	Sire: JBR 8734	Dam: JBR 8854
	Micron = 23.8 %	Kemp = 0.0	% Med = 0.1

The finest haired buck of our entire '92 crop and the lowest kemp levels. We would like for him to be heavier on his chin cover, but he has good size and proper body structure with a high yielding "C-type" web lock fleece (St Dev = 6.4). He has pink silky ears and a mohair tail. His meaty, medium sized, slightly chalky mother is by Early 2.

LOT 74	FLS2-397	Sire: FLS9-68	Dam: H 2800
---------------	----------	---------------	-------------

This buck has a soft, uniform fleece. His mother is out of BL 812.

LOT 75	BL 1299	Sire: BL 940	Dam: BL 608
	Micron = 26.9	% Kemp = 0.1	% Med = 0.0

A nice, fine haired buck with good strong horns and a square body. Pember and Howard G. Hay bloodlines.

LOT 76	JXN 2377	Sire: JXN 835	Dam: JXN 1550
---------------	----------	---------------	---------------

J-1550 is by BL 727 (our partnership buck with Ben Lockhart) and out of a Jackson doe.

LOT 77	H 3547	Sire: PS 3017	Dam: H 1515
---------------	--------	---------------	-------------

This buck is a good combination of Pember and JBR 7814, Champ. He is a quality buck.

LOT 78	JBR 9203	Sire: JBR 8734	Dam: JBR 8908
	Micron = 31.2	% Kemp = 0.2	% Med = 0.3

This buck is well covered with good breed character about the head. He is heavier shearing with above average lanolin and a slightly coarser neck. Mr. Livability is the sire of the dam, and she is out of a Schmidt-Ross doe.

LOT 79	FLS2-408	Sire: FLS9-68	Dam: FLS0-165
---------------	----------	---------------	---------------

This buck has a fine, long stapled, soft fleece. We would like his horns to be wider. His mother is out of PS 346. He was born 4/15/92.

LOT 80	BL 1259	Sire: BL 965	Dam: BL 685
	Micron = 26.3	% Kemp = 0.2	% Med = 0.2

A very fine, uniformly fleeced buck with good style and character. He has a large, long body and is tremendously dense. His grandsire is a Haby bred buck with an Earwood buck on his dam's side.

LOT 81	JXN 2355	Sire: BL 727	Dam: JXN 304
---------------	----------	--------------	--------------

LOT 82	H 3534	Sire: PS 357	Dam: H 1901
---------------	--------	--------------	-------------

You will like his style, character and uniformity. His dam is by H 901

LOT 83	JBR 9228	Sire: RK 221	Dam: JBR 8955
		Kemp = 0.3	% Med = 1.2

If his horns were wider spaced, we would keep this big, long bodied buck because he has the longest staple length with a distinct uniform lock with the curl that we prefer. His mother, by JBR 8573, is well covered, has good wide-spaced horns and above average lanolin.

LOT 84	FLS2-363	Sire: FLS9-90	Dam: FLS0-149
---------------	----------	---------------	---------------

This correct, square bodied buck has a soft, long stapled fleece. His mother is a Superfine daughter.

LOT 85	BL 1278	Sire: BL 940	Dam: BL 654
	Micron = 28.6	% Kemp = 0.5	% Med = 0.2

This TWIN is a line bred BL 277, Bill, bloodline. He is very fine and has an excellent handle and feel to his fleece.

LOT 86	JXN 2275	Sire: JXN 987	Dam: JXN 826
---------------	----------	---------------	--------------

A well made buck whose front toes pull him down to a commercial buck, but his mother is a twin to our herd sire J-835.

LOT 87	H 3383	Sire: SHS 65	Dam: H 1338
---------------	--------	--------------	-------------

This buck will work well in a commercial flock.

LOT 88	JBR 9279	Sire: RK 221	Dam: JBR 0-121
	Micron = 27.5 %	Kemp = 0.0	% Med = 0.5

A large brother to Lot 83 that has good horns, but he is not as uniform as his mate. The young dam is by JBR 8734.

LOT 89	FLS2-292	Sire: PS 3017	Dam: FLS8-61
---------------	----------	---------------	--------------

This narrow horned buck has a soft, ringlet fleece.

LOT 90	BL 1263	Sire: BL 965	Dam: BL 345
	Micron = 27.3 %	Kemp = 0.3	% Med = 0.5

A square bodied buck with a fine, ringlet, uniform fleece with good staple length. This buck has lots of luster as well as good style and character. He has one of the best handling fleeces we are offering.

LOT 91	JXN 2267	Sire: JXN 987	Dam: JXN 372
---------------	----------	---------------	--------------

A big, well covered commercial buck. His dam has a uniform dense fleece.

LOT 92	H 3486	Sire: SHS 65	Dam: H 1004
---------------	--------	--------------	-------------

This buck has a fine, high yielding fleece.

LOT 93	JBR 9253	Sire: BL 965	Dam: JBR 8480
	Micron = 29.2	% Kemp = 0.6	% Med = 0.3

A well covered, heavy shearing buck with the type of head and horns we like. His dam is by the big, fine-haired "Ox." She is a 9 year old doe who has raised 7 kids in a row. Five of them have "stars" by their numbers including the big JBR 8779 buck whose fleece was Grand Champion at the Sonora Wool & Mohair Show in 1988.

LOT 94	FLS2-298	Sire: SHS 65	Dam: PS 2305
---------------	----------	--------------	--------------

This large bodied buck has a high yielding, long stapled fleece.

LOT 95	BL 1275	Sire: BL 965	Dam: BL 962
---------------	---------	--------------	-------------

This close horned, high yielding, very dense, ringlet buck shows good style and character with staple length. A grandson of the Ross buck JBR 8243, Mr. Livability. He exhibits the style of the Ross bloodline.

LOT 96	H 3428	Sire: PS 357	Dam: H 1056
---------------	--------	--------------	-------------

We like this buck's fleece except for the change on the neck.

LOT 97	JBR 9227	Sire: K 957	Dam: JBR 8729
	Micron = 26.2	% Kemp = 0.0	% Med = 0.2

This long bodied buck may need a little more width, but he has an excellent lab report with a fine, dense fleece along with good horns. His dam is one of the "Pair of Diamonds" does. She is sired by JBR 8599, the 1986 National Futurity Champion.

LOT 98	FLS2-285	Sire: GLS 3344	Dam: PS 2397
---------------	----------	----------------	--------------

This buck has a solid conformation and a heavy shearing fleece with adequate fineness.

LOT 99	BL 1260	Sire: BL 965	Dam: BL 846
	Micron = 30.5	% Kemp = 0.0	% Med = 0.2

This square bodied, high yielding fleeced buck has good luster. His mother was a twin out of Bill and one of our best stud does, BL 162.

LOT 100 H 3465

Sire: PS 357

Dam: H 1764

This buck is very correct in conformation and has a fine uniform fleece. His dam is by PS 1132.

LOT 101 JBR 740

Sire: K 957

Dam: JBR 8559

The lab test is not available, but he has a fine, soft fleece that one finds with Sweeten and Kuebel breeding. His mother is by the large Sweeten 297 buck and out of a doe used in our embryo program.

LOT 102 FLS2-329

Sire: JBR 8729 Dam: HO 3436

A large bodied, thrifty buck with a soft, high yielding fleece.

LOT 103 BL 1296

Sire: BL 940

Dam: BL 485

Micron = 33.7 %

Kemp = 0.1

% Med = 0.1

This buck of the Sweeten bloodline has a soft fleece. He also traces back to H 888, Pistol.

LOT 104 H 3281

Sire: PS 357

Dam: H 2273

This fine, high yielding, range buck goes back to a Ross buck on the dam's side.

LOT 105 JBR 766

Sire: PS 2294

Dam: JBR 8660

Micron = 30.0

% Kemp = 0.3

% Med = 0.2

This is our densest buck with an above average amount of lanolin. He has good size with a good body score. His mother is a daughter of Champ.

LOT 106 FLS2-342

Sire: PS 357

Dam: FLS9-102

This long bodied buck has a soft, very long stapled fleece. His mother is out of Superfine.

LOT 107 BL 1264

Sire: BL 965

Dam: BL 893

Micron = 31.7

% Kemp = 0.1

% Med = 1.2

This buck's dam is from our stud doe family. He has a dense fleece with good handle and luster on a square body. His grandsire is Cript, which was out of a good Pember buck and was used successfully in the Fritz Kuebel and Haby herd.

LOT 108 H 3274

Sire: AB 1817

Dam: H 2352

We are selling this buck unregistered. He is a very good range buck.

LOT 109 JBR 9289

Sire: HIL 57

Dam: 9005 JBR

Micron = 26.7

% Kemp = 0.5

% Med = 0.3

Sired by Giles' HIL 57 (son of BL 277, Bill), this buck's lab test AND PEDIGREE speaks of quality. He has good size and above average lanolin with lots of character to his fleece.

LOT 110 FLS2-338 Sire: PS 357 Dam: RLE 2863

This soft fleeced buck has ample fineness and will be heavier shearing.

LOT 111 BL 1247 Sire: Speck 210 Dam: BL 958

This TWIN is a heavy shearing grandson of BL 277, Bill. He is uniform and well covered with a mohair tail. He is sired by the Speck buck which was champion at many shows.

LOT 112 JBR 9204 Sire: JBR 8713 Dam: JBR 0-108

Micron = 33.2 % Kemp = 0.3 % Med = 0.3

This buck is for someone who already has enough oil/lanolin, but who needs one with a great body and mohair tail. His sire is a son of Mr. Livability that we brought home from the Performance Tail in 1988. The young dam is a full sister to Lot 73. Lot 112 is one of the meatiest billies with uniformity that we have seen this year.

Congratulations to the 1993 Show Winners

- Eric Geske –** 1st place kid fleece – San Angelo – JBR Bred
- Shane Keller –** Champion Buck – San Antonio and San Angelo. Sired by JXN test tag 229 (1991) and out of an Ebeling-Keller doe.
- 1993 Performance Test – popular test tag 67. Sired by JXN tag 229 and out of a JBR 8471 doe whose dam was purchased at our '89 sale.
- James Poe –** Grand Champion Doe – Kerrville and San Antonio. Sired by a Kendrick buck and out of a JBR doe purchased at our '90 sale.
- Rousselot Ranch –** Finest bag (23.5 microns) (2nd place over-all) Noble Spring Kid Mohair Bag sponsored by MCA at the Sonora Mohair Show. Commercial bucks purchased from Earwood, JBR & JXN.
- Speck Family –** Several champion Angora goats and fleeces at all of the major winter shows.
- Stefny Sutton –** Champion Buck at Houston – JXN bred.
- Kerrville 1st Place Showmanship.
- State 4-H – 1st place Project Demonstration involving Angora Goats.

Stefny Sutton with her JXN Champion
