

THE SEVENTH JOINT HABY-LOCKHART-ROSS ANGORA GOAT PRODUCTION SALE

*Edward Earwood and Sarah Speck
with last year's highpriced buck.*

**HILL COUNTRY FAIRGROUNDS
JUNCTION, TEXAS
JULY 23, 1994
9:30 A.M.**

Guest Consignors: the Speck Family

WELCOME TO THE SEVENTH Haby-Lockhart-Ross Angora Goat Production Sale.

We are pleased to announce the addition of the Speck family as guest consignors this year.

Even though we four breeders have similar standards and breeding programs, the animals have been raised in different environments, management and kidding dates. Please make note of these differences and make visual and lab report comparisons of individual animals from *within that specific herd*.

BREEDER'S GUARANTEE— Should any goat be proven to be a non-breeder its first breeding season, please notify the particular breeder. Common sense and fairness by both the seller and buyer should prevail. If the animal has not been neglected, fed excessively, exposed to a disease after the sale, loaned out or sold to another party, etc., the animal may be returned for replacement after agreement by the seller. **No guarantee can be made as to how the goat will cross with your goats.** The goats should be allowed adequate time to adapt to their new location after transportation.

TERMS are cash or check. Should any dispute arise from the taking of bids, the auctioneer's decision will be final.

HEALTH CERTIFICATES – Any potential buyer should check in advance with his state's veterinary health requirements and be prepared to make necessary arrangements.

COMMENTS and MICROSCOPIC LABORATORY reports are provided to give you additional information as you examine certain goats for your *specific needs*. The lab reports were taken from the **Spring fleece** (2nd shearing). The entire fleece is placed in the multiple coring machine so as to get a reading for the complete fleece— not just the pretty locks on the side. Therefore, the reported average micron includes the usually coarser neck fibers. Most of the fleece will actually grade out finer than recorded. Kemp and med fibers are related but separate undesirable traits. They cannot always be seen with the naked eye and frequently do not correlate to those fibers seen down the back. Be concerned about any kemp in excess of 1%. Some say the commercial trade wants it no more than 0.5% More is to be learned about med fibers. Be concerned if the reports exceed 5%. We prefer even a lower percentage.

Lock type descriptions used by the breeders will vary. The words ringlet or C-type web are actually referring to a fine haired goat with a narrow base lock usually less than 1/2 inch wide. A middle-of-the-road or a moderate flat lock may be just as fine and have just as much character but the lock at this age will be 1/2" to 1" wide.

Look at the goats closely and feel free to ask questions.

Thanks for your interest and support. We will see you at the other remaining sales. We will have a few bucks at the Performance Test Sale on July 28 at the Sonora Experiment Station and hope you can attend the Harper sale this afternoon.

REFERENCE SIRES - HABY RANCH

Earwood 3790, 3886, and 3944 — These bucks are all big framed with fine, uniform fleeces and that excellent character typical of the Earwood flock.

PS 3017 — Pember's test lot 168 at the 1991 Performance Test. He has excellent conformation and a soft, fine, uniform fleece. He has produced good kids for the Specks and Habys.

PS 2968 — Pember's test lot 172 that we bought along with PS 3017. He has a typical Pember fleece and good confirmation.

PS 3118 — Pember's test lot 205, we purchased at the 1992 Performance Test. A very fine, uniform, heavy fleece on a buck that lacks scale and thickness of body.

CONGRATULATIONS TO THE 1994 SHOW WINNERS

Diana Keller — Grand Champion Open Fleece at the statewide Sonora Wool and Mohair Show – purchased from FLS at last year's sale.

Williams Brothers — Champion Commercial Fleece at the statewide Sonora Wool & Mohair Show – JBR bred.

Speck Family — several champion Angora goats and fleeces at all of the major winter shows.

REFERENCE SIRES — LOCKHART RANCH

BL 940 “Fancy” — The fleece on BL 940 is similar to the mohair on the South African goats. This buck has a uniform, ringlet fleece with excellent style and character. “Fancy” has a good, square body and stands well on his feet. Jim and Donna Eggemeyer and the Batla Brothers purchased half interest in BL 940 for \$2500 at our 3rd production sale. He is sired by BL 277 “Bill.”

BL 965 “John” — This son of BL 277 “Bill” has a uniform, ringlet fleece with excellent staple length. He is a linebred Koontz bloodline buck. This is our 41st year to linebreed this bloodline of goats. John Beckham paid \$2500 for half interest at our 3rd production sale.

BL 471 “Bill Jr.” — “Bill Jr.” is the best bodied, fine haired buck we’ve raised. He has sired some good goats in the Pat Jackson flock. His dam, Craddock 148, was purchased at the Ahlschwede dispersal sale. She was champion doe at all the major shows.

BL 277 “Bill” — The sire of “Bill” is PS 332, who sired some of the best goats in the country. He was used successfully in the Orr, Haby, Pape, Lockhart and Pember herds. “Bill’s” fleece tested 27 microns when he was an aged buck. “Bill” was used also in the Ross, Giles, and Dick Herndon herds. Several sons of Bill are stud bucks. “Bill” was champion buck at Kerrville. His mother was a linebred Koontz doe with a Howard Hay outcross in her pedigree. She died at age 13.

Kuebel 814 — Out of a top Kuebel doe, he was sired by Early 2 (a son of GLS 1424). As a yearling (3rd shearing) his fleece tested 29 microns. In the 1992 HLR Joint Sale, the Zac Davis syndicate purchased a son of K 814 from the Haby herd for \$5600. Several other sons have sold at the TAGRA Rocksprings sale up to \$4400 (Dick Karnes) and at the Performance Test up to \$1900. Sons of these bucks have produced top indexing (Dick Karnes) and top selling (Ross) bucks at the 1992 Performance Test. We would like to thank Fritz for selling K 814 to us.

REFERENCE Sires — ROSS RANCH

JBR 8734 — This buck is straight Ross breeding for at least two generations. He has good size, stands well on all four feet, has correct horns and has a fancy, uniform fleece. We would like for him to have more oil in his fleece. We think you will like his offspring. JBR 0-101 is his son.

K 957 — He is a Kuebel buck that indexed in the top 10 at the 1989 Performance Test. His sire is K 814, one of the finest haired bucks in the state. K 814 was sired by Early 2 of GLS breeding. We purchased K 957 because he was uniform with a curl, has good horns and is free of kemp. He was the sire of the top selling buck at the 1992 Performance Test - purchased by Ben and Virginia Epps. JBR 604 is his son.

JBR 8243 — A grandson of JBR 7814 "Champ." He was our largest and finest kid raised in 1982. He represents "Livability for Easy Care." We like his offspring from our Ross-Schmidt does. He also crossed well with Robin Giles' fine-haired, thrifty flock. JBR 8243 weighed 220 pounds. He died in 1990, but his fleece still had that beautiful style. He was a very fertile breeder. Note the mohair tails on his offspring - unusual for a large buck with a correct body. JBR 8713 is his son.

JBR 658 — He is a little coarser buck than we usually breed, but we kept him at the ranch after he placed 4th in the strong 1993 San Antonio show. He produces that extra inch of hair all the way down on the britch. His fleece is dense, soft and has a high character score. He is sired by a high indexing Renfroe buck. We will keep two of his sons that performed well at the Performance Test this year.

Karnes-JAS 349 — Thanks to Dick Karnes for allowing us to use this well balanced, fine, high yielding, Steiler-bred buck that sired RK 221 — the 1991 Champion at Kerrville and San Antonio shown by April Spiller. He is also the sire of our fancy, eye catcher #138 at the Performance Test.

K 1070 — This fine haired buck has a pedigree that is hard to beat. His sire is Haby's "Superfine" and his dam is a twin sister to Kuebel's 814. We purchased this large buck because his fleece is low in kemp and very uniform. He has a wide front end with large, rounded, well placed horns. His fancy son, tag #140, will sell at the Performance Test this year.

Forked Lightning 93B — Buddy and Lee Clark are to be thanked for allowing us to use this twin that tested well at the 1990 Performance Test. His sire is an Ebeling buck.

REFERENCE SIRES — SPECK RANCH

H 584 “Superfine” — This legendary Haby stud, along with H 787 “Son of Champ,” has provided the foundation of our herd. Both bloodlines have produced champions for Speck Angoras at all major shows in 1990 through 1994.

GLS 3344 — This Schimdt buck purchased at the Texas Angora Goat Raiser’s Sale has a very fine, long stapled fleece. We are pleased with his offspring.

PS 3017 — Hayden Haby purchased this Pember buck at the 1991 Performance Test. He exhibits excellent breed character and is robust with a fine fleece.

FLS990 — This buck is out of a long stapled, fancy Pember doe and sired by H 787 “Son of Champ.” He combines a fine fleece with a correct conformation and breed character. A 1992 buck kid he sired won Grand Champion Fleece at the 1993 Sonora Wool & Mohair Show. “Son of Champ” was sired by JBR 7814 “Champ.”

SHS 65 — This son of H 584 “Superfine” has a huge, correct body and a very fine fleece. He lacks density but produces the largest of kids.

CER 866 — This Renfroe bred buck is out of a Ross buck and an Ahlschwede doe whose gransire was Pember 332. He is a large, open faced buck with correct legs and a very fine high yielding fleece.

FLS1 249 — This is the finest fleeced, most uniform buck we have. His sire is FLS9 68 and his dam, FLS9 76, is a daughter of “Superfine.” This year on the show string, he was 1st place Aged Buck at the Kerrville, San Antonio, and Houston Jr. Stock Shows.

FLS1 228 — This large, heavy boned buck has a very long stapled, heavy shearing fleece similar to his sire BL 812. His kids are all large and thrifty.

BREEDER'S EAR INITIALS:

H-Haby; BL-Lockhart; JBR-Ross; FLS-Speck

Shearing Dates: Except where noted, all goats were shorn on February 1 or the last week of January.

SALE DOES

Each breeder picked 2 of the better ones to start the sale order, but the goats are not placed.

LOT 1 FLS3 490 Sire: SHS 65 Dam: FLS0 153

This doe was on the Speck show string and was shorn late (March). She has a soft, fine fleece. She is one of the top does we are offering in the sale. She combines large size with a uniform fleece.

700

LOT2 H 3743 Sire: PS3017 Dam: H 2100

This is the finest, most uniform fleeced doe that we will offer. She is long bodied with correct confirmation. She goes back to Lockhart's "Bill" on the dam's side.

LOT 3 JBR 9366 Sire: JAS 349 Dam: JBR 638
Micron = 28.2 % Kemp = 0.1 % Med = 0.2

A fancy doe that has the most uniformity of both fineness and staple length of the Ross does. She is well covered, but open faced with a mohair tail. Her dam was in the show string and is a granddaughter of JBR 8599, the 1986 National Futurity Champion Buck.

LOT 4 FLS3 553 Sire: CER 866 Dam: H 2665

This show goat was shorn in March. She has a very dense, fine, ringlet fleece. Her mother is a Haby doe that has one of the longest stapled fleeces in our herd.

300

LOT 5 H 3864 Sire: PS 2968 Dam: H 2313

This doe has an extremely fine, soft fleece with good uniformity and yield.

LOT 6 JBR 9373 Sire: JAS 349 Dam: JBR 8654
Micron = 26.7 % Kemp = 0.4 % Med = 0.0

A well covered doe with a dense, uniform, long stapled fleece and pink, silky ears. Her meaty dam is a granddaughter of Bushong 365, the #1 indexing buck at the 1983 Performance Test.

LOT 7 FLS3 S88 Sire: PS 3017 Dam: V-7

This well covered doe offers a long stapled, soft fleece. We would like her to be more uniform on the neck.

300

LOT 8 H 3852 Sire: PS 3017 Dam: H 469

This granddaughter of "Pistol" has good staple and excellent neck cover.

LOT 9 JBR 3-111 Sire: JBR 9132 Dam: JBR 8669

A stylish, mohair tailed doe with the just-right amount of lanolin. Her dam is Ross breeding with a dense fleece. See LOT 53 about the sire.

LOT 10 FLS3 491 Sire: GLS 3344 Dam: FLS8 58

This well covered doe has a fine ringlet fleece with luster. Her mother is out of H 787 and is our finest fleeced doe.

450

LOT 11 H 3836 Sire: E 3886 Dam: H 3201

A well covered, fine fleeced doe with good length of body. Her fleece changes some on the neck.

LOT 12 JBR9324 Sire: JBR Dam: JBR8802

Micron = 25

% Kemp = 0.5

% Med = 0.4

This open faced, uniform fleeced (St dev = 6.1) doe has good inside character and luster. The dam is by Early 2 of good GLS breeding and out of a top Ross-Pember doe.

LOT 13 FLS3537 Sire: FLS1249 Dam: V-13

This large, well covered doe has a soft, dense fleece of medium fineness.

350

LOT 14 H3739 Sire: E3886 Dam: H 1709

A fancy, uniform fleeced doe that had a horn broken as a kid.

LOT 15 JBR 9336 Sire: K 1070 Dam: JBR 8660

She appears to be our finest doe with the most lanolin. Please note the very narrow-based lock. Breed this twin doe to a meaty buck. Her dam is a daughter of "Champ."

LOT 16 FLS3 555 Sire: FLS9 68 Dam: H 2545

This show goat was shorn in March. She has an open face and a dense, uniform fleece of medium fineness.

250 CRP

LOT 17 H3820 Sire: E 3886 Dam: H 2286

This big doe is a little light on throat cover.

LOT 18 JBR 9346 Sire: Clark 93B Dam: JBR 8659

Micron = 30.7

% Kemp = .01

% Med = 0.4

A big, thick bodied doe with a dense, soft fleece. She has a good open face and is slightly coarser on the neck. The dam is out of JBR 7952, one of our top producers with an excellent body score. She is the granddam of the BL 812 buck.

LOT 19	FLS3 583	Sire: 4P210	Dam: PS 4003
---------------	-----------------	--------------------	---------------------

This show goat, shorn in March, has a very uniform fleece that is dense. She is open faced. Her sire, 210, was champion buck at several major shows in 1992 and 1993.

LOT 20	H3761	Sire: E3886	Dam: H 1666
---------------	--------------	--------------------	--------------------

A long bodied, heavy shearing doe.

LOT 21	JBR 9353	Sire: JBR 8878	Dam: JBR 9027
---------------	-----------------	-----------------------	----------------------

One of our largest does raised under our conditions. This alert doe carries herself very well. Please notice her uniform neck cover and mohair tail. Her sire was purchased from us by Renfroe and Jackson. Several of his kids were high indexing for CE Renfroe at the 1992 performance test.

LOT 22	FLS3 562	Sire: PS 3017	Dam: HO 4060
---------------	-----------------	----------------------	---------------------

This show goat, shorn in March, is a large, structurally correct doe with a uniform, medium fine fleece.

LOT 23	JBR 9369	Sire: JBR 658	Dam: JBR 9086
---------------	-----------------	----------------------	----------------------

Micron = 27.2

% Kemp = 0.5

% Med = 0.5

A dense, well covered, uniform fleeced doe with that fancy, C-web lock that we prefer. Her mother is by the fine haired, high indexing HIL 57 buck of Giles-Lockhart breeding.

LOT 24	FLS3 467	Sire: CER 866	Dam: H 3194
---------------	-----------------	----------------------	--------------------

This doe has a very soft, long stapled, fine fleece and displays excellent breed character. Her mother is a twin to the high selling Haby buck (\$5400) at the 1992 sale.

LOT 25	JBR 9376	Sire: K 1070	Dam: JBR 8932
---------------	-----------------	---------------------	----------------------

Our heaviest shearing doe with the most oil. No lab test is available, but she does show some white fibers down the back. Her mother, a daughter of JBR 8243 "Mr. Livability," has a fancy fleece and an excellent rated body score.

LOT 26	JBR9378	Sire: K 1070	Dam: JBR8950
---------------	----------------	---------------------	---------------------

Micron = 27.8

% Kemp = 0.1

% Med = 0.5

A soft fleece with pink, silky ears. Her foretop has been trimmed some. She is another granddaughter of "Mr. Livability".

LOT 27	JBR 9384	Sire: K 1070	Dam: JBR 8935
---------------	-----------------	---------------------	----------------------

Micron = 24.6

% Kemp = 0.2

% Med = 0.2

Another granddaughter of "Mr. Livability" that is fancy and fine (St. dev as low as 4.8 is excellent). She has above average oil. The granddam is by K 554.

LOT 28	JBR 9388	Sire:	Dam: JBR 8744
	Micron = 27.3	% Kemp = 0.1	% Med = 0.2

A very alert doe with a fine, dense fleece and a heavy chin with the open face that we prefer. Her dam is by the buck Kuebel 554.

LOT 29	JBR 9392	Sire: JBR 8932	Dam: JBR 8787
	Micron = 28.7	% Kemp = 0.0	% Med = 0.3

This well balanced doe has a high yielding fleece with a moderate lock. She is linebred as both parents are by JBR 8599 (the 1986 National Futurity Champion).

LOT 30	JBR 9395	Sire: K 1070	Dam: JBR 8907
	Micron = 26.2	% Kemp = 0.4	% Med = 0.5

Our largest doe in the sale; she has the just-right face cover and has Kuebel- breeding on both sides of her pedigree.

LOT 31	JBR9317	Sire: 93B	Dam: JBR8843
	Micron = 26.4	% Kemp = 0.2	% Med = 0.7

This big, long bodied doe is the good-mother type with a fine, narrow based lock. She has an open face and is starting to shed some on the neck. Some med fibers are showing down the back. Her grandsire is K 554.

LOT 32	JBR9338	Sire: JAS 349	Dam: JBR8650
	Micron = 26.3	% Kemp = 0.2	% Med = 0.4
	JBR9347	Sire: K 1070	Dam: JBR0-106
	Micron = 24.7	% Kemp = 0.1	% Med = 0.1

These two does are too small to breed or to show this year, but they have the quality and lab test results to make good does if not turned out on the range. They sell together. JBR 9338's foretop has been trimmed slightly.

LOT 33	JBR 9306	Sire: 93B	Dam: JBR 8854
	Micron = 28.9	% Kemp = 0.0	% Med = 0.4

Her half-brother from the same dam was our finest haired and lowest kemp-rated buck in last year's sale. He went to Canada. He had an excellent body-score rating. We would like to see her stand straighter. The mother is by the good bodied Early 2 buck of GLS breeding.

LOT 34	JBR 9363	Sire: JBR 658	Dam: JBR 9135
	Micron = 27.1	% Kemp = 0.1	% Med = 0.0

This medium sized doe is dense and well covered. Her show-doe mother is an embryo transfer offspring of K 957.

LOT 35 JBR 3-157 Sire: JBR 8734 Dam: JBR 8918

Here is the style and length that mohair is supposed to look like. The narrow, fine lock carries down well onto the britch and it is the longest stapled fleece of our does. Her mother (sired by BL 471) is also the granddam of LOT 3.

LOT 36 FLS3 484 Sire: SHS65 Dam: H 461

This structurally correct doe is the largest doe we offer today. She produces a long stapled fleece. She was shorn in March and has a 20 week fleece. Her mother is out of Pember 332.

425

LOT 37 H 3892 Sire: PS 2968 Dam: H 1336

We like this doe's size, confirmation and staple length.

LOT 38 JBR 9334 Sire: JBR 604 Dam: JBR 9144

Micron = 23.4 % Kemp = 0.3 % Med = 0.2

The finest is saved for the last. This alert, medium-sized doe is linebred K 957. The high selling buck at the 1992 Performance Test is a full brother (E.T.) to the mother. The sire JBR 604 is a son of K957 also.

YEARLING BUCKS

LOT 40 FLS3 453 Sire: SHS 6S Dam: XR 75

This buck combines excellent breed character, large size, and a fine, ringlet fleece. His mother is out of a fancy Pember doe and a Schmidt buck.

LOT 41 JBR 9307 Sire: JBR 0-101 Dam: JBR 8834

Micron = 31.2 % Kemp = 0.2 % Med = 1.3

A well balanced buck with good breed character about the head and horns. His uniform fleece has distinct individual locks. The alert, well-made Pember 2294 is the sire of the dam.

LOT 42 BL 1378 Sire: K814 Dam: BL 1681

This is the top, stud buck prospect that we have for sale. He has a good mohair tale, has mohair to the hoof with good breed character around the head and face. A superfine, ringlet fleece from neck to britch. He comes from our stud buck bloodlines whose grand dam is sired by BL 170 "Nuggett" and Koontz 162 blood doe. 162 raised "Wild Indian" and "Friend" which produced many championship bloodlines in our herd. This buck is from Diana's show herd. We reserve the right to breed ten (10) head of does per year to this buck. SELLING 3/4 INTEREST AND FULL POSSESSION.

LOT 43	H 3665	Sire: CER 866	Dam: H 1113
---------------	---------------	----------------------	--------------------

This big, thrifty buck was raised by the Speck family and is out of a Haby doe and a Renfroe buck. He has a soft, fine fleece and an open face.

LOT 44	FLS3 437	Sire: GLS 3344	Dam: FLS9 75
---------------	-----------------	-----------------------	---------------------

This buck was on the show string and shorn in March. He is a large, thrifty goat with a dense, fine, uniform fleece. His mother is a daughter of "Superfine."

LOT 45	JBR 9319	Sire: K 1070	Dam: JBR 8737
	Micron= 27.5	% Kemp = 0.4	% Med = 1.2

A specific-need buck for the breeder who wants fineness with above average oil. His mother is a granddaughter of BL 277 "Bill." Her big, stout son was the 10th high indexing buck at the 1993 Performance Test purchased by Eugene and Pam McEntire.

LOT 46	BL 1392	Sire: BL 965	Dam: BL 617
---------------	----------------	---------------------	--------------------

A grandson of BL 277 "Bill" with ringlet fleece and excellent staple length. He carries an ample amount of oil with good luster. This buck has big bones, stands correctly with good head and horns. Pedigree includes "Champ" bloodlines that produced many good goats in the Ross herd and also includes good Trees/Powers blood.

LOT 47	H3677	Sire: E3944	Dam: H 1319
---------------	--------------	--------------------	--------------------

A buck with good size, length of body and uniformity of fleece. His soft ear indicates freedom of kemp. Showed and sheared late.

LOT 48	FLS3 511	Sire: FLS1228	Dam: P 344
---------------	-----------------	----------------------	-------------------

This is our largest buck in the sale. His fleece displays bright luster and is so and uniform.

LOT 49	JBR 9359	Sire: JAS 349	Dam: JBR 8689
	Micron = 26.3 %	Kemp = 0.0 %	Med = 0.1

Here is a big, fine haired, open faced buck with the best lab test results of our group. He has a slightly wider lock on the rump, but it is unusual to have such a uniform lock on the neck of a large buck.

LOT 50	BL 1345	Sire: BL940	Dam: BL 654
---------------	----------------	--------------------	--------------------

This son of BL 940 carries a dense, soft fleece with ample luster and a good heavy chin. He is well covered from chin to hoof.

LOT 51	H 3752	Sire: AB 1817	Dam: H 2114
---------------	---------------	----------------------	--------------------

Big, long-bodied, medium-fine, easy-care type range buck.

LOT 52	FLS3 454 h	Sire: SHS 65	Dam: FLS7 14
---------------	-------------------	---------------------	---------------------

This upstanding show goat was shorn April 8 and has a 15 week fleece. He has excellent body conformation and a uniform body fleece.

LOT 53	JBR 9356	Sire: JBR 9132	Dam: JBR 8908
	Micron = 27.9	% Kemp = 0.1	% Med = 0.0

We are selling a HALF INTEREST in this buck. As explained in the past, the seller will breed the goat for late March-April kids. Due to the possibility of transportation stress during the breeding season, the HALF INTEREST will be limited to those breeders who have goats in the area of the state that is approximately within a 250 mile radius of Sonora-Rocksprings, TX.

This good-sized, beautiful buck has that narrow, pencil lock from one end to the other. He has "Mr. Livability" on both sides of his pedigree. He needs more density to his high yielding fleece and a slightly wider horn. His mother's heavy shearing, yearling buck last year sold to Robert Stewart for \$2000. The sire's 8 year-old mother is rated excellent in body score and still has a "yearling" fleece. We will keep her tag #141 yearling buck at this year's P.T. The South Africans picked JBR 9356 as our top kid.

LOT 54	BL 1372	Sire: K814	Dam: BL935
---------------	----------------	-------------------	-------------------

The dam of this buck is an embryo daughter of BL 550 who produced the National record price doe purchased by Charles Stegall and Herbert Holmes. A great grandson of BL 277 "Bill" with a nice ringlet fleece with good luster. Horns are a little close but he should be a mohair improver.

LOT 55	H 3762	Sire: PS 3017	Dam: H 2803
---------------	---------------	----------------------	--------------------

This medium sized buck has a fine, uniform, long stapled fleece.

LOT 56	FLS3 488	Sire: GLS 3344	Dam: PS 2760
---------------	-----------------	-----------------------	---------------------

This large, well covered buck has bright luster, medium fineness and a dense fleece. He will be a heavier shearing goat.

LOT 57	JBR 9337	Sire: JAS 349	Dam: JBR 8961
	Micron = 32.1	% Kemp = 0.1	% Med = 0.0

An alert, medium sized buck with a very low kemp level and good staple length with density.

LOT 58	BL 1362	Sire: BL940	Dam: BL 485
---------------	----------------	--------------------	--------------------

One of the largest bucks we are offering. He shows a beautiful, ringlet fleece, uniform from neck to britch with the type of body exhibited by the South African goats. He exhibits a very correct, meaty body that the offsprings of BL 940 are noted for. Though he is a little light under the chin, he has excellent luster and fleece quality. We offer \$100 prize money for the 1 st offspring of BL 1362 that wins the meat goat show at any regional or major state show.

LOT 59 H3756 Sire: PS 3118 Dam: H 1203

Medium size with a dense, fine, long stapled fleece.

LOT 60 FLS3443 Sire: FLS9 68 Dam: FLS9 76

This very fine, soft fleeced goat is a full brother to our stud sire FLS1 249.

LOT 61 JBR9345 Sire: JAS 349 Dam: JBR9145

Micron = 30.1

% Kemp = 0.3

% Med = 0.1

LOT 62 BL 1419 Sire: BL965 Dam: BL626

This late April kid is very high yielding with a so fleece and good mohair tail.

LOT 63 H 3835 Sire: E 3886 Dam: H 2046

Medium size with a long staple, high yielding fleece.

LOT 64 FLS3 444 Sire: CER 866 Dam: HO 3426

This well covered buck has a soc, very uniform fleece and an open face.

LOT 65 JBR 9309 Sire: JBR 658 Dam: JBR 0-108

Micron = 29

% Kemp = 0.5

% Med = 0.2

This high yielding buck is fine haired with good style and character. His dam is by JBR 8734 and out of our good producer JBR 8854.

LOT 66 BL 1423 Sire: K814 Dam: BL 1216

Late March buck with a ringlet fleece with good luster and an ample amount of oil.

LOT 67 H 3733 Sire: E 3790 Dam: E 2119

Medium size, dense and fine. Showed and sheared late.

LOT 68 FLS3 560 Sire: PS 3017 Dam: FLS1192

This well covered buck displays good breed character and has a dense, soft fleece. His mother is out of Kuebel 814 and our best Pember stud doe.

LOT 69 JBR 3-101 Sire: Clark 93-B Dam: JBR 8784

Micron = 28.7

% Kemp = 0.5

% Med = 0.2

This show buck was shorn late in March. His mother is a meaty, heavy shearing doe.

LOT 70 BL 1380 Sire: BL965 Dam: BL802

Big, strong buck that is heavy shearing and well covered with a soft fleece. He will add good quality mohair to his progeny.

LOT 71	FLS3 538	Sire: FLS9 90	Dam: FLS8 56
---------------	-----------------	----------------------	---------------------

This buck has a very fine, ringlet, uniform fleece. Both grandsires are Haby bucks and both granddams are Pember does.

LOT 72	JBR 9349	Sire: JBR 0-101	Dam: JBR 8702
---------------	-----------------	------------------------	----------------------

Micron = 32 % Kemp = 0.1 % Med = 0.2

This big, long bodied, commercial buck is our heaviest shearing goat. He has uniformity and , staple length with good character. His mother is an ET doe sired by the # 1 indexing Haby 901 .

LOT 73	BL 1367	Sire: K814	Dam: BL 587
---------------	----------------	-------------------	--------------------

This little buck has one of the finest uniform fleeces that we offer for sale.

LOT 74	FLS3 579	Sire: FLS9 68	Dam: FLSI 262
---------------	-----------------	----------------------	----------------------

This buck has a long stapled, soft, dense fleece with bright luster.

LOT 75	JBR 9370	Sire: JAX 229	Dam: JBR 5-104
---------------	-----------------	----------------------	-----------------------

Micron = 30.0 % Kemp = 0.3 % Med = 1.3

Another big, stout, commercial buck.

LOT 76	BL 1400	Sire: BL965	Dam: BL631
---------------	----------------	--------------------	-------------------

This grandson of BL 277 "Bill" has a high yielding fleece with ample luster and excellent staple length. This is the type of mohair the buyers are looking for.

LOT 77	FLS3 S47	Sire: PS 3107	Dam: GLS 2347
---------------	-----------------	----------------------	----------------------

This big, open faced buck is one of our heavier shearing goats with a uniform, medium-fine fleece. His mother, a big, fine Schmidt doe, produced two stud does for us that have been champions at several major shows.

LOT 78	JBR 9357	Sire: JAS 349	Dam: JBR 8963
---------------	-----------------	----------------------	----------------------

No papers available. Here is a real meat goat, no matter what the breed! And *goat meat* is our *other product*. This buck is fine haired and his mother is our largest doe. The same \$100 prize money for purebred or crossbred kids applies to 1st place winners at state shows through 1996.

LOT 79	BL 1359	Sire: BL 965	Dam: BL 917
---------------	----------------	---------------------	--------------------

Another good buck sired by BL 965 with good staple length and soft fleece with lots of luster. He should add good quality mohair to his offspring.

LOT 80	FLS3 596	Sire: 4P 210	Dam: FLSI 250
---------------	-----------------	---------------------	----------------------

This buck was born in late May 1993 and has a super fine, ringlet, uniform fleece. His mother has a very fine fleece and is a twin to our sire buck FLSI 249. His father, 4P 210, is a very large, fancy buck who has been a consistent winner in the show ring.

LOT 81 BL 1387 Sire: BL471 Dam: BL797

This buck has soft hair with a good handle to his fleece which is high yielding with good luster.

LOT 82 FLS3 540 Sire: PS3017 Dam: FLS9 101

This very large, thrifty buck has a fine, uniform fleece and an open face. His mother is a "Superfine" daughter.

LOT 83 BL 1338 Sire: BL940 Dam: BL554

A good stout buck with good staple length. He will add pounds to your mohair clip.

LOT 84 FLS3 421 Sire: SHS 65 Dam: XR 87

This well covered, big buck has a very long stapled, so fleece.

LOT 85 BL 1330 Sire: BL 940 Dam: BL 957

This little buck has a nice, uniform, ringlet fleece.

LOT 86 FLS3 585 Sire: FLSI 228 Dam: FLS1259

This buck, an April 1993 kid, is a large, thrifty buck with a soft, dense fleece.

LOT 87 BL 1344 Sire: BL940 Dam: BL679

This son of BL 940 has a soft, high yielding fleece with good staple length.

LOT 88 BL 1341 Sire: BL940 Dam: BL851

Folks, if you are looking to add meat goat quality and a fine, ringlet fleece to your herd, look no further. \$100 prize money will be awarded to the 1 st kid that wins any regional or state meat goat show sired by BL 1341.
